S 2230-2 u (A)

BASIC ECONOMIC DATA FOR IDAHO

STATE OF IDAHO
John V. Evans, Governor

DEPARTMENT OF EMPLOYMENT
Scott B. McDonald, Director

December 1981

FOREWORD

This publication replaces the Basic Economic Data for Idaho published in November 1979 and September 1980. This issue is a supplement to the March 1978 issue which contains all previous available data. The series has been compiled in response to the many requests for industrial employment data. It contains a historical record of Idaho's Nonagricultural Wage and Salary employment by industry, tabulated on statewide, area, and county levels.

We hope the publication of this information will assist private and government researchers in their tasks. A large proportion of the data was gathered as a result of the day-to-day activities of the Idaho Department of Employment.

The assistance provided by Idaho's business community, local office managers, and the area employment analysts is greatly appreciated.

Carol Johnston
Janell Hyer
Research and Analysis

TABLE OF CONTENTS

Nonagricultural Wage & Salary Employment By:
Statewide 5
Area 8
Local Office Narratives 27
County 70

NOTE: Data does not contain farm employment, domestics, nonagricultural self-employed persons or unpaid family members.

Nonagricultural Wage & Salary Employment is compiled by Place of Work.

IDAHO

Wide seasonal fluctuations are normal for Idaho's labor force. This is particularly true in basic industries such as agriculture, construction, food processing and lumber. The weather, which affects outdoor working conditions, is a major determinant of employment levels in some industries. There are peaks and valleys in the hiring pattern which are repeated year after year. Peak employment normally occurs in late summer, while winter is usually the low point.

A strong factor in the seasonal variation in employment is the agricultural community. Not only is agricultural work seasonal, but a large amount of nonfarm employment is derived from processing, packaging, storing and shipping of farm products. A heavy demand for seasonal workers is caused by the need for perishable crops to be processed at the time of harvest.

Some crops, such as potatoes and sugar beets, can be stored or stockpiled so that processing operations can be extended over a period of several months. Potato storage techniques allow potatoes to stay "fresh" for long periods, and makes potato processing possible almost year round. The ability to store sugar "liquor" for future processing allows a longer season for sugar manufacturing operations.

The year-round operation of these two industries is now limited by the supply of the crop for processing and storage facilities rather than by the technological ability to store the raw product. In the case of some crops such as potatoes, they can be shipped in from other areas when the local supplies area exhausted.

Idaho's economy is becoming more diversified as new industries such as Electronics and Heavy Machinery Manufacturing move in. Also, products of established industries are being expanded, removing some seasonality and helping to flatten out the seasonal employment pattern.

Market conditions for products also affect the employment pattern. When there is a strong demand, production may stay high in a normally off season. A low demand could cause a longer period of low employment or more severe layoffs.

Variation in employment in the basic industries has its effect on supporting industries, such as trade and services. Employment in these industries is reduced when the basic industries have seasonal layoffs or employment is curtailed due to depressed market conditions.

Additional workers which are needed during peak demand periods come from several sources. Sources include youth, students, and housewives who do not desire to work steadily, and migrant workers.

Agriculture is the primary user of migrant workers. Most of the migrant farm workers come to Idaho from other western states for peak demand periods and then move on to other areas. The demand for migrant workers is decreasing, as mechanization and technology eliminate much of the hand work which requires large groups of workers.

The construction industry labor force is affected by the in-and-out migration of workers. The ranks of those workers will increase with favorable summer weather and large projects. During the winter when work is curtailed, many workers will leave the area in search of employment. When large projects are completed, workers will move on to other projects in other states.

The Idaho Labor Force is growing along with the population. New and expanding industries increase the demand for workers. This in turn draws more people into the area and causes a continued expansion of all areas.

The importance of women in Idaho's Labor Force is growing. During the 1970-80 period, the estimated female labor force participation rate (LFPR) increased by 8.6%, while the male LFPR decreased by 4.2%. It is estimated that 40% of the total 1980 labor force is female, while in 1970 women accounted for nearly 35%.

A look at the following tables will provide an overview of the growth that has taken place during the period from 1970 to 1980.

	Females as Percentage of Total Population (16 Yrs. & Older)	Labor Force
1970	50.7	34.9
1980	50.6	40.4

	Labor Force Participation Rate		
	Total (Male & Female)	Male	Female
1970	62.0	81.8	42.7
1980	64.3	77.6	51.3

Estimated Percentage Growth — 1970 to 1980

	Population (16 Yrs. & Older)	Labor Force	Labor Force Participation Rate
Total (Male & Female)	39.9	45.1	2.3
Female	39.8	67.9	8.6

It is interesting to note that although the percentage mix of the work age population changed very little, the percentage of females in the work force increased significantly.

NORTHERN IDAHO

BENEWAH
BONNER
BOUNDARY
KOOTENAI
and SHOSHONE COUNTIES

The Emerald Empire, which is in the Idaho Panhandle, consists of the five northernmost counties of Idaho. It is bordered on the north by Canada, on the east by Montana, and on the west by Washington. Economically, it is closely associated with the Spokane, Washington, Labor Market area.

Principal industries are tourism, lumber manufacturing, nonferrous metal mining and smelting, and agriculture. This area employed 52.6 percent of the Idaho workers in 1980 who worked in the mining industry which is centered in Shoshone County. Principal minerals processed in the Shoshone mining district are lead, zinc, and silver. Idaho produces half of the silver mined in the United States. The three largest silver mines in the country are located in Shoshone County.

The lumber industry is basic in all the panhandle counties. These counties employed 30.2 percent of all the lumber workers in the state in 1980.

Other important industries are trade, service and government. Because of the large amount of public forests, forestry and land management units are substantial employers.

Farragut State Park is situated on Lake Pend Oreille, which lies in Bonner and Kootenai Counties. This park has been the scene of national and international scouting encampments and jamborees for both boy scouts and girl scouts. The 1969 and 1973 National Boy Scout Jamborees were held at this park.

Employment throughout the area, with the exception of the mining industry, is highly seasonal. Relatively high employment rates are expected during the winter, and labor shortages often develop during peak summer employment periods.

The area has experienced rapid growth in both population and the labor force in recent years. It is anticipated that the economy will continue to grow. Growth usually brings new industries, which tend to level out the seasonal pattern. Electronic components manufacturing, a growing industry in the area, is an example of such an industry.

Kootenai County is the most populous of the counties in the area and provides employment for almost percent of the workers in the area. This county is growing faster than the area as a whole. The portion of the labor force attributed to this county increased from 43 percent in 1970 to percent in 1980.

NORTH CENTRAL IDAHO

CLEARWATER
IDAHO
LATAH
LEWIS
and NEZ PERCE COUNTIES

North Central Idaho is made up of five North Central Counties of Idaho. It is bordered on the east by Montana and on the west by Washington and Oregon. This area contains many mountains and much of the area is timbered. The major industry is lumber and wood products (including paper manufacturing). Agriculture is also important to the economy as the vast areas of rolling hills are conducive to dry farming with grain and peas being the primary crops. Logging and agriculture are both highly seasonal and effect a seasonal pattern of highs and lows in employment and unemployment.

This area has the distinction of having the only seaport in Idaho. Lewiston, the major city in the area, is linked to the Pacific Ocean for barge traffic through a series of locks on the Snake and Columbia Rivers. The major commodity which is transported from the Port of Lewiston is wheat, but barge transportation is available for all types of products.

In addition to having the only seaport, Lewiston also has the only paper mill in the state along with one of the major sawmills. These mills, both operated by Potlatch Corporation, supply employment for a significant portion of the labor force.

The University of Idaho is located in Moscow, the second largest city in the area. The student population each academic year provides a great boost to the economy of that city. Students not only provide impetus to the trade and service industries, but also form a large pool of part-time workers with a wide variety of skills.

Most of this area is not heavily populated due to a large mountainous and forested area and the rolling hills of dry farm land. The streams, lakes and forests provide recreational facilities and many people enjoy their use.

The North Central area provides work for approximately 11% of the wage and salary workers in the state. It has all of the paper products manufacturing and one third of the lumbering industry employment. The area is experiencing growth both in population and labor force and indications are that growth will continue into the foreseeable future.

MADISON
and TETON COUNTIES

Northeastern Idaho is bounded on the north by Montana and on the East by Wyoming where Yellowstone Park is part of the boundary. The area contains the Idaho National Engineering Laboratory (INEL) which is a major employer and has had a great impact on the area over a period of years.

A large portion of Northeastern Idaho is mountainous and sparcely populated. There are wilderness areas which have been set aside to preserve the natural elements and beauty. The mountainous portion provides recreational opportunities such as camping, hiking, fishing, hunting, snowmobiling, and various other activities usually connected with mountainous terrain.

By contrast, there are also large areas of farm land and desert areas. Crops which are grown include hay, grain, potatoes, beans and sugar beets. The desert lands include wide areas of lava flow. The Craters of the Moon National Monument is located within Northeastern Idaho. The landscape within the monument is filled with craters from former volcanic activity and resembles the crater-filled landscape of the moon.

The INEL provides a decided boost to the economy. Atomic energy research provides employment for a large group of workers. The INEL is situated in a desert area near Arco and the majority of the workers live in Idaho Falls and surrounding communities. Some also commute from the Pocatello area.

Idaho Falls is the largest city and the retail center for Northeastern Idaho. Bonneville County is the most populous of the nine counties. About 50 percent of the area's population and labor force is located in this county. The remainder is distributed among the remaining counties with Clark County, the smallest, accounting for less than one percent.

GEM
OWYHEE
PAYETTE
VALLEY
and WASHINGTON COUNTIES

The Southwestern corner of the State includes the nine counties surrounding Ada County, which is the Boise Standard Metropolitan Statistical Area (SMSA). This Southwestern area of the state is bordered on the west by Oregon and on the south by Nevada. Canyon County is the most populous county of the area and has the greatest economic impact with more than 55 percent of the labor force.

The area has a wide diversification of industry and geography. The terrain consists of desert, river valleys, foothills, plateaus and mountains. There are vast areas of fertile irrigated farm land which make the area a major agricultural community. Food processing is an industry which is closely associated with agriculture and plays an important role in the area's economy. At higher elevations, ranching and logging become evident. Manufacturing of recreational vehicles and mobile homes has become a significant part of the economy with more than half of the state's work force in this industry located in Southwestern Idaho.

Southwestern Idaho has approximately 13 percent of the total nonagricultural employment in the state. By comparison, it has about 17 percent of the manufacturing employment, with 25 percent of the food processing and 19 percent of the lumber and wood products employment.

There is a pattern of workers commuting between this area and Ada County. Because the Boise SMSA is located in Southwestern Idaho and due to the relative short distance from Boise to Nampa and Caldwell (the two most populous cities in Southwestern Idaho), many workers find it convenient to live in one area and work in the other. Some workers prefer to live in a metropolitan area and work in less populated surroundings, while others prefer the country living and city work.

BOISE SMSA

ADA COUNTY

Ada County is located in Southwestern Idaho and is the Boise Standard Metropolitan Statistical Area (SMSA). Boise is the largest city in the state and is the state capital. As such it is the seat of state government and the government industry is a major contributor to the economy of the area.

The southern portion of the county is primarily desert land and is sparcely populated. The northern portion, with the bulk of the industry and population, includes Boise City. The rural portion of the northern portion is agricultural where a variety of irrigated crops are grown. There is a close tie with Canyon County, which is agriculturally oriented.

Ada County has over one-fifth of the wage and salary workers in the state and about one-fourth of the government workers. About 15 percent of the manufacturing workers and 26 percent of the nonmanufacturing workers in the state find employment here.

Manufacturing of electronic components is a growing industry.

The Boise SMSA has experienced a continual growth from 1970 to 1979. New industries were introduced and growth was seen in established industries. In 1980 and 1981, population and economic growth slowed because of recessionary pressures. There has been an in-migration of people into the area. The increasing population has triggered housing developments. These have absorbed land which was formerly used for agricultural purposes.

Ada County has shown more growth during the period from 1970-1980 than any other area in the state. The population increased 54 percent between 1970 and 1980. The labor force grew by more than 84 percent in the same period.

The growth pattern established during the 1970's for Ada County is expected to resume once the national economy recovers from the recession. In 1980 and 1981, there may have been a net loss in population, as the poor economy forced some residents to move elsewhere in search of jobs.

SOUTH CENTRAL IDAHO

BLAINE
CAMAS
CASSIA
GOODING
JEROME
LINCOLN
MINIDOKA
and TWIN FALLS COUNTIES

The valley is a part of the semi-arid Snake River Plain that is bounded on the north and south by mountain ranges. The valley is volcanic in origin, and where topsoil exists is extremely fertile. The climate is typically hot, dry summers and moist, cold winters.

The economic base of South Central Idaho is agriculture and tourism. In agriculture we have cattle raising, feeding, and processing; and basic crops for the area are potatoes, corn, beans, sugar beets, peas, grains, and hay. The Snake River Plain counties have long been known for the production of seed crops. A few major employers are represented by Ore-Ida, Idaho Frozen Foods, J. R. Simplot, Del Monte, Green Giant, and Amalgamated Sugar. The area is gradually broadening its industrial base with manufacturers of plastic housewares, fiber cartons, and custom business forms. All eight counties feel the effect of tourism, but in particular Blaine County which is known for the famous ski and summer recreational resort of Sun Valley

The major employing industries of the area are trade, services, food processing, and government. There is a shortage of experienced RN's and skilled craftsmen. In the future there is expected to be a need for experienced workers in the skilled crafts, and an increasing demand for workers in the service and domestic occupations.

Fish raising and production is becoming a more significant agricultural activity in the eight-county area of South Central Idaho. The many spring water outlets along the Snake River provide ideally suitable waters for trout raising. The world's largest commercial hatchery is located in Gooding County along the Snake River.

The scenic and recreational qualities of the mountainous section of South Central Idaho attract thousands of people each year to Sun Valley and the Stanley Basin area. Just north of the eight-county area is the Sawtooth National Recreation Area noted for its beauty and rugged wilderness area.

Twin Falls County is the most populous of the eight counties included in the South Central area. This county contains approximately 40 percent of both the population and the labor force. On the other end of the scale, Camas County has less than one percent. The other six counties share the remainder and range from about 3 percent to 14 percent.

and POWER COUNTIES

The extreme southeastern part of the state is bounded on the south by Utah and on the east by Wyoming. It contains the second largest city and some of the largest industrial plants in the state. The total area of the seven counties is 9,361 square miles.

This area, like much of the rest of the state, depends to a large degree on agriculture. Irrigated farm lands cover much of the area and crops including beans, peas, hay, grains, potatoes, and sugar beets are grown.

An industry which complements the agricultural community is food processing. There are several large food processing plants and also some fresh pack warehouses within Southeastern Idaho. This allows the farm produce to be processed close to the point of harvest.

Pocatello, the largest city within the area and the second largest city in Idaho, has been growing rapidly. It is a major railroad center with the Union Pacific shops located there. These shops have provided year around work for a substantial number of workers and have a steadying impact on the economy.

Pocatello is the home of the Idaho State University. The student population demands goods and services which provide an economic boost to the area. They also provide a pool of short time and part time workers to draw from during the academic year and boost the labor force each spring as students not otherwise in the labor force seek work for the summer.

There are several large industrial plants located in Southeastern Idaho. Included are production and manufacturing of phosphate fertilizer, elemental phosphorous, and heavy equipment. Other important industries in the area include cheese manufacturing, phosphate mining and electronic circuits manufacturing.

In addition to the labor force in Southeastern Idaho, there are a large number of workers who commute to Northeastern Idaho to work at the Idaho National Engineering Laboratory at Arco. These commuting workers have greater impact on the economy of Southeastern Idaho than Northeastern Idaho as they buy more goods and services where they live. Some workers also commute into the area but those who commute out are in the majority.

Bannock County, where Pocatello is located, is the most populous county of Southeastern Idaho. It has approximately half of the area's work age population and labor force.

BLACKFOOT

DEPARTMENT OF EMPLOYMENT
Box 9
155 North Maple
Telephone 785-2200
M. Wade Virgin, Manager

POPULATION

1960 Census	7,378
1970 Census	8,716
1980 Census (Preliminary)	10,065

AREA SERVED: Bingham County, Butte County and Mackay section of Custer County.

GEOGRAPHY, CLIMATE: Blackfoot is located in southeastern Idaho on U.S. Highways 26, 91, 191 and Interstate 15. It is midway between Idaho's second largest city, Pocatello, and Idaho Falls, the third largest. The Blackfoot area has an average rainfall of 11.8 inches per year with a mean annual temperature of 45 degrees F. The elevation is 4,497 feet above sea level.

MAJOR INDUSTRIES: The major industries are agriculture, the manufacturing of agricultural machinery and the processing of agricultural products, primarily potatoes. The area has five potato processing plants which generally operate nine to ten months each year and employ up to 2,000 people during peak periods. Besides the processing plants, there are 30 fresh market potato warehouses. Also, some of the richest phosphate deposits are located in Bingham County on the Fort Hall Indian Reservation which are leased and mined by J. R. Simplot Company.

OCCUPATIONS: Shortages and surpluses occur primarily in the seasonal food processing plants and potato warehouses. At times there are spot shortages of workers in construction and retail trades. During seasonal declines, there are surpluses in nearly all of the occupations common to the area. Currently we foresee no unusual situations which would precipitate a change in our demand of workers. Projected funding for the INEL in nuclear research indicates increased growth over the next two years.

UNIONS: The offices for Labor Unions having jurisdiction over members in this area are located in either Pocatello or Idaho Falls.

HOUSING: The Riverside Inn with 80 units, dining and banquet rooms, is the largest motel in Blackfoot. There are also seven other motels who offer single rooms or kitchenette units. There is an apartment complex with 24 units of one, two and three bedroom apartments qualifying for low-income family rental. There are also 104 units of Senior Citizen housing—62 in Blackfoot, 28 in Aberdeen, and 14 in Firth.

There is a farm labor camp located at Aberdeen with 26 individual units and a housing capacity of 130 workers. On-the-farm housing is supplied by many farmers for their workers.

FACILITIES: Blackfoot has city water and a modern secondary waste water treatment plant. Electricity is furnished by Idaho Power Company and natural gas by Intermountain Gas. Many home owners are installing coal and wood burning stoves as an alternate source of heat and for cooking. The area is served by one railroad and numerous truck lines.

TRANSPORTATION: Blackfoot is served by Union Pacific Railroad and an average of eight freight and parcel carriers. Greyhound Bus Lines offers passenger and express service wilth three scheduled runs north and south each day. The Salmon River Stages serves Salmon and intermediate points and return three times a week. Garrett, Consolidated, and PIE all have warehouses in Blackfoot, with PIE having a terminal facility. The area is served by all major truck lines in the intermountain area. Taxi service is available, and a bus is available to senior citizens for their transportation needs. Blackfoot's airport offers instruction, ambulance, charter and crop dusting services.

HOSPITAL AND MEDICAL FACILITIES: Bingham Memorial Hospital and Nursing Home has 78 nursing home beds and 54 acute care beds. State Hospital South has an average patient residency of 200, plus patients in shelter home care. Lost River Hospital at Arco in Butte County as 10 acute care and 15 nursing home beds. There are 11 medical doctors, plus naturopaths, osteopaths and chiropractors. There are 10 dentists and a dental laboratory.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: Blackfoot has churches representing 15 denominations. These include the Assembly of God, Bethel Lutheran; Emanual Lutheran, Church of Christ, Bible Baptist, First Baptist, Cavalry Bible, Jason Lee United Methodist, Latter Day Saints, Seventh Day Adventists, St. Bernard's Catholic Church, St. Paul's Episcopal Church, Jehovah Witness, World Wide Church of God and Baha'i Faith.

Blackfoot School District has 7 elementary schools, one junior high school, one middle school, and one high school. The adjacent Snake River School District has an elementary, a junior high and a high school. There are also schools for grades 1 through 12 at Firth, Shelly and Aberdeen in Bingham County. The Cavalry Bible Church operates a school for grades 1 through 12.

Recreational facilities include eight play parks, plus Jensen Grove which has a lake for swimming, boating and water skiing, beach, and picnic shelters. There are three theaters, a community auditorium, an olympic size year-round swimming pool, two bowling alleys, a handball court, 18-hole golf course, six tennis courts, several baseball diamonds, a rodeo grounds and the Eastern Idaho State Fair — the largest in Idaho. There are numerous service clubs and fraternal organizations.

OTHER: Blackfoot is the county seat of Bingham County, the largest potato producing county in the United States.

Employment and training programs under the Comprehensive Employment and Training Act (CETA) are being offered through the Department of Employment. Services include financial aids for vocational training, on-the-job training, work experience. Training is taking place at area vocational schools, local and state units of government, and at private businesses in the community.

The Idaho Migrant Council maintains an office in Blackfoot to assist the migrants and seasonal farm workers with employment, housing, social and recreational services.

BOISE

DEPARTMENT OF EMPLOYMENT
1175 South Orchard
Telephone: 334-2611
Ed E. Clark, Manager

POPULATION

1960 Census	**34,481**
1970 Census	**74,990**
1980 Census (Preliminary)	**102,451**

AREA SERVED: Ada and Boise Counties.

GEOGRAPHY, CLIMATE: Boise is the capitol of the Gem State and county seat of Ada County. Boise is the hub of southwestern Idaho and eastern Oregon, and is located in southwest Idaho on U.S. Highways 20, 26, 30, and Interstate 84. The elevation of Boise is 2,739 feet above sea level. Winters are mild with little snow, and summers are temperate with cool nights. Average summer daily maximum temperature is 87 degrees, with a minimum of 55 degrees. Winter temperatures average daily from 28 to 38 degrees. The annual precipitation average is 11.5 inches.

MAJOR INDUSTRIES: Nonmanufacturing industries make up nearly 90 percent of Ada County's nonagricultural employment. Among the nonmanufacturing industries, wholesale and retail trade is the leading employer, with 26 percent of nonagricultural employment in the county. When education employment is combined with other government employment, government becomes the second largest employer, with 20 percent of nonagricultural employment.

Manufacturing employment had been increasing in the Boise area and was becoming more important relative to other industries up until the 1980 recession. The recession produced such a lag in miscellaneous manufacturing that the overall gain in manufacturing employment was not great.

Agricultural employment has experienced a steady decrease in the Boise area and averages about 1,300 workers.

OCCUPATIONS: Through the 1970's, Boise was expanding at a rapid pace requiring additional workers and business establishments to handle the growth. Since 1979, jobs have become more difficult to find and a labor surplus has existed through 1980 and 1981. If recessionary trends recede soon, Boise is expected to return to the growth patterns of previous years and professional and skilled workers will be needed. Agricultural employment is expected to continue to decline.

Even in good times, the Boise labor market experiences a seasonal surplus of workers in almost all industries. This seasonality will probably continue after the economy improves. Demand has always been highest for secretaries, draftsmen, and medical technologists. Cooks, waitresses, and maids are also in short supply, especially during the tourist season

UNIONS: Numerous unions are represented in the Boise area, and several maintain offices here.

HOUSING: A housing surplus has developed in the area since 1979. With the advent of the 1980 recession, home building activity nearly halted; and as workers left the area, a surplus developed. Prices remained high, however, and home sales are lagging because of high interest rates. There are numerous rentals available, with rents ranging from $150 to $350 per month.

Boise has a variety of hotel and motel accommodations available including several convention centers.

FACILITIES: Boise is served by a municipally owned, modern sewage treatment plant. Electricity is furnished by the Idaho Power Company; natural gas by Intermountain Gas Company; and telephone service by Mountain Bell Telephone Company.

TRANSPORTATION: Boise Urban Stages provides transportation throughout the city and suburbs. Railroad passenger service is available on AMTRAK, which runs through Boise to the northwest and southeast. Three national and four regional airlines serve the Boise area and have terminals at the Boise Municipal Airport. More than 30 motor freight carriers operate from Boise, with additional freight being transported by the Union Pacific Railroad and the bus lines serving the area. Taxi and limousine service is also available, as is extensive auto rental.

MEDICAL AND HOSPITAL FACILITIES: Boise's medical and hospital facilities are excellent. The area is served by more than 200 physicians and surgeons, more than 100 dentists, and four hospitals—St. Luke's (including the Mountain States Tumor Institute), St. Alphonsus, the Veteran's Hospital, and the Elk's Rehabilitation Center.

SCHOOLS, CHURCHES, AND RECREATION FACILITIES: Boise is served by 28 elementary schools, six junior high schools, three senior high schools, one parochial high school, and eight parochial elementary schools. There is also one special education school. In addition, there are two senior high schools, four junior high schools, eighteen elementary schools, and another special education school outside the city limits in the county. Boise State University is located within the city limits. There are various privately operated vocational schools in the area.

State Law Library, the State Traveling Library, the State Historical Library, the Boise Public Library, and the library at Boise State University provide sources of reference material.

Sports and recreational facilities are plentiful with hunting, fishing, boating, and skiing available within a short driving distance from the city.

There are churches representing nearly 60 religious denominations in Boise.

OTHER: Boise is the largest city in Idaho, with a 1980 census population of 154,600 within the city limits. Ada County, with 172,840 people in 1980, is the most populous of Idaho's counties.

Boise is served by four local television stations and fourteen radio stations. Cable television service has recently become available in most areas of the city.

The Idaho Statesman publishes a daily newspaper.

BONNERS FERRY

DEPARTMENT OF EMPLOYMENT
1069 South Main
Telephone 267-5581
Ray Walker, Manager

POPULATION
1960 Census **1,921**
1970 Census **1,909**
1980 Census **1,906**

AREA SERVED: Boundary County.

GEOGRAPHY: Boundary County is the northernmost county in Idaho. It is bordered by Canada to the north, Montana to the east, Washington to the west, and Bonner County to the south. The area is primarily mountainous and heavily timbered; however, the Kootenai River Valley is flat and fertile enough for agricultural activities. The Kootenai, Pack, Priest, and Moyie Rivers all flow through the county. Bonners Ferry is the principal city and is located where Highway 95 crosses the Kootenai River.

MAJOR INDUSTRIES: Primary industries are lumber mills and logging. There are also many U.S. Forest Service employees in the county. Other important industries are agriculture, supportive services, and tourism. The primary crops are clover seed, grain, alfalfa, hops, and dairy products.

OCCUPATIONS: The most prevalent occupations are related to the major industries. Sawmill workers lead the list, followed by loggers, Forest Service workers, and farm workers.

UNIONS: The area is not strongly unionized. One of the large sawmills is union and one is not. Other unions include the various craft unions and some retail clerks.

HOUSING: Bonners Ferry has three motels with 46 units. There are no condominiums or townhouses at present. Good quality rental housing is almost nonexistent. New houses for sale are more available than rentals. There are no farm labor camps in the area.

FACILITIES: Bonners Ferry is served by a municipal power company and has the lowest rate in the State. Rural areas in the county are served by Northern Lights, R.E.A. Pacific Gas Transmission Company has a large natural gas pipeline that traverses the county, and Washington Water Power distributes this gas in Bonners Ferry. Extensive water supplies are available for future industrial expansion. A small dam on the Moyie River furnishes the power for the Bonner Ferry City Power Company.

TRANSPORTATION: Empire Lines provides bus service to Bonners Ferry, with daily routes to Canada and Spokane, Washington. Passenger service by air or train is not available in town, but both of these services are in Sandpoint, which is 32 miles south of Bonners Ferry.

MEDICAL AND HOSPITAL FACILITIES: The area is served by five physicians and surgeons. Bonners Ferry has a hospital and a senior citizens' residence called Restorium.

SCHOOLS, CHURCHES, AND RECREATION FACILITIES: Primary schools vary greatly throughout the area, from one-room, multi-grade rural schools to very modern new units. Secondary units are consolidated into Bonners Ferry High School. Churches in Bonners Ferry include Assembly of God, Baptist, Catholic, Latter-Day Saints, Lutheran, Mennonite, and Methodist.

Bonners Ferry has a public golf course, a movie theater, and a bowling alley. The area is excellent for outdoor activities such as fishing, hunting, backpacking, and camping.

MEDIA: The area is served by KBFE AM Radio in Bonners Ferry; and **The Bonners Ferry Herald** is published weekly.

The County has 848,400 acres, of which 39 percent is farm land. The balance of the county, which is heavily forested, lies mostly in the Coeur d'Alene National Forest and areas supervised by the Idaho Department of Public Lands.

BURLEY - RUPERT

DEPARTMENT OF EMPLOYMENT
127 West 5th Street North
Telephone: 678-5518
Roger Poulton, Manager

POPULATION

1960 Census	
Burley	**7,508**
Rupert	**4,153**
1970 Census	
Burley	**8,279**
Rupert	**4,563**
1980 Census (Preliminary)	
Burley	**8,761**
Rupert	**5,476**

AREA SERVED: Cassia County, Minidoda County, the eastern portion of Jerome and Lincoln Counties, and the southeast portion of Blaine County.

GEOGRAPHY, CLIMATE; Burley is the county seat, the largest community in Cassia County. It is 4,151 feet above sea level. Rupert is the county seat of Minidoka County and is the basic trade and retail center for the county. It is 4,256 feet above sea level. The mean annual temperature in Minidoka and Cassia Counties is 48 degrees. The average precipitation varies from 8.0 to 10.0 inches per year. The winters are normally mild with some snow. The temperatures in summer are warm, though not extreme, with cool nights and low humidity. There is a total of 345,000 acres of harvested farm land in Minidoka and Cassia Counties.

MAJOR INDUSTRIES: The major industries are agriculture and food processing. The principal crops grown and prepared for market are potatoes, sugar beets, and grain. There are seven food processing plants in the area which employ approximately 2,300 workers about 11 months each year. Burley and Rupert are important shopping centers for the area, creating an extensive wholesale and retail industry.

OCCUPATIONS: Those occupations related to agriculture and food processing industries provide the majority of jobs. Agriculture provides the largest volume of jobs during the growing and harvest seasons, with food processing providing the principal source of employment during the winter and early spring months. There is sometimes a shortage of labor during the spring months when the need for agriculture and food processing workers overlaps. There is very little fluctuation of employment within the trade industry. Uemployment is highest during July and August.

UNIONS: Carpenters and Joiners Union, Local 1058; Hod Carriers, Construction, Building and Maintenance Workers Union, Local 810; Teamsters Union, Local 483; Grain Millers Union, Local 296; Amalgamated Meat Cutter Union, Local 2181.

HOUSING: There is adequate housing available, both for rent and sale, in the Burley-Rupert area. Rentals, both houses and apartments, range from $200 to $350 per month. Houses for sale are in practically any price range. There are 15 motels in Burley with a capacity of over 1,450 people, and 4 motels in Rupert with a total of 50 rooms. There are two labor camps in Cassia County and three in Mimidoka County which provide adequate low cost housing for seasonal workers who migrate to this area for agricultural employment.

FACILITIES: Water, electricity, and sewage facilities are municipally owned and operated in Burley and Rupert. The supply of facilities is more than adequate for both commercial and residential use in both Rupert and Burley. Natural gas is provided for commercial and residential use in both communities by Intermountain Gas Company. Telephone service in the Rupert area is through Project Mutual, a cooperative association. Burley and outlying areas are provided telephone service by Mountain Bell Telephone Company.

TRANSPORTATION: Greyhound Bus Lines schedules several buses daily, both east and west, through Burley and Rupert, as does Trailways Bus Lines. Union Pacific Railroad provides adequate freight service to the Burley-Rupert area. A number of truck lines maintain daily schedules in and out of Rupert and Burley. Taxi service is available in Burley.

MEDICAL AND HOSPITAL FACILITIES: Burley has 13 medical doctors and access to many specialists, three optometrists, three chiropractic physicians, seven dentists, one orthodontist, a modern 102-bed county hospital and a geriatric ward, and a nursing home. Rupert has a modern county-owned hospital with 79 geriatric beds and 25 medical surgery beds. The Burley and Rupert hospitals are both operated by a nonprofit organization. There are three nursing homes, eight medical doctors, six dentists, one chiropractor, and three eye doctors.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: Burley has four grade schools, a junior high school, and a modern senior high school. Outlying communities in Cassia County each have one grade school and a high school. There are 25 churches, representing 15 denominations. The city provides an extensive recreational program under the supervision of a full-time director. There are five public parks, one 9-hole golf course and one 18-hole golf course, a municipal swimming pool, a baseball park, and two modern bowling alley. Minidoka County has a county high school, two junior high schools which are located in Rupert, Paul, and seven grade schools situated throughout the county. There are 21 churches in Rupert, representing 17 denominations. Rupert maintains nine parks (21 acres total) with playground equipment and picnic facilities. Major outdoor sports in the Burley-Rupert area are boating, fishing, hunting, and skiing, with the famous Sun Valley Resort only two hours away by auto.

OTHER: Burley's newspaper, **South Idaho Press**, is printed daily, and Rupert's newspaper, **The Minidoka County News**, is printed twice weekly. There are two radic stations in the area, station KBAR in Burley and Station KAYT in Rupert. There is a municipally owned airport adjacent to Burley with lighted runways, a communication station operated by FAA, charter service, and a student flying program. Cassia and Minidoka Counties are known as the "Potato Processing Capital of the World."

COEUR D'ALENE

DEPARTMENT OF EMPLOYMENT
202 Anton Avenue
Telephone 667-6461
Betty Kerr, Manager

POPULATION
1960 Census 14,291
1970 Census 16,228
1980 Census (Preliminary) 20,054

AREA SERVED: Kootenai County.

GEOGRAPHY, CLIMATE: Kootenai County is approximately 100 miles south of the Canadian Border, and extends 40 miles east from the Washington line. The county seat, Coeur d'Alene, is located at the junction of U.S. Highway 95 and Interstate 90. The elevation is 2,158 feet above sea level. The average annual rainfall is 26 inches. The mean temperature is 48 degrees, with a high in the summer of 95 degrees.

MAJOR INDUSTRIES: The major industries are lumber, tourism, trade, forestry and agriculture.

OCCUPATIONS: Seasonal variations in worker supply and demand occur primarily in the logging industry, with temporary shortages of skilled and semiskilled woods workers occurring in the late summer and surpluses occurring during winter and early spring months. The same pattern prevails in the construction and service industries but to a lesser degree.

UNIONS: Barbers, Local 516; Culinary and Bartenders, No. 229; Carpenters Local 1691; Fire Fighters, Local 710; Electrical Workers, No. 73; I.B.E.W. 77-24; Teamsters, Local 551; Painters, Local 1428; Ironworkers, Local 14; Typographical 794; Laundry, Local 49; Sheet Metal Workers, Local 338; Woodworkers C.I.O. 10119; Retail Clerks, 1349.

HOUSING: Coeur d'Alene has 29 hotels and motels which can accommodate approximately 1,000 overnight guests. Houses are available for rent. Approximately 250 apartments are in or near the city and rentals are usually available. New home construction is available in choice residential areas with financing through local banks, FHA or G.I. commitments.

FACILITIES: Electricity is furnished by Washington Water Power and Kootenai R.E.A. The sewage disposal water system is owned by the city. Natural gas is furnished by the Washington Water Power Company. Telephone service is furnished by General Telephone Company of the Northwest.

RAILROADS: Freight service only is provided by the following: Burlington Northern and Spokane International Railroads. Passenger service is available in Spokane.

TRUCKLINES: Wallace-Colville Auto Freight; Coeur d'Alene Auto Freight, Inland Motor Freight; Garrett Freightlines.

TRANSFER AND STORAGE: Luke's Transfer (Van Lines); Stoddard Transfer and Fuel (Mayflower).

TRANSPORTATION: Bus Lines: Greyhound, Empire Lines and City Bus Lines. Air Lines: Served by three major airlines in Spokane, fifty minutes to airport. Five firms in the county offer charter air service. Water Transportation: Lafferty Transportation Company operates tugs in interstate commerce to move logs and timber products on Lake Coeur d'Alene, the Spokane River, and Coeur d'Alene River and the St. Joe River.

MEDICAL AND HOSPITAL FACILITIES: Coeur d'Alene is served by the 181-bed Kootenai Memorial Hospital. There are four private nursing homes. Coeur d'Alene has 60 physicians and 35 dentists. General health of the area is supervised by the Kootenai County Health Unit and a Mental Health Unit.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: A two-year college, one high school, two junior high schools, seven public grade schools and two private grade schools. Parks: Seven city-owned parks.

Playgrounds: Four, plus facilities of the various school grounds. Amusements: A community theater, three indoor and one outdoor movies theaters, three bowling alleys, tennis courts, a roller skating rink, and three 18-hole golf courses are located in the area. Coeur d'Alene is located at the outlet of Lake Coeur d'Alene, which has 108 miles of shoreline and covers 77.3 square miles. The recreational activities include boating, fishing, and other water sports. Forest Service camps and picnic grounds are available. In season, deer, bear, elk, and other big game are hunted in the area surrounding Coeur d'Alene. Four large ski resorts are within two hours driving time from Coeur d'Alene. In addition to Lake Coeur d'Alene, several other fresh water lakes are located within the county. There are numerous churches in Coeur d'Alene including most of the major denominations.

OTHER: Coeur d'Alene has a daily newspaper, a weekly newspaper, and two radio stations. Nine radio stations and four television stations from Spokane serve the area. Also available on cable, besides the four Spokane stations, are four stations from Coeur d'Alene and one each from Canada, Moscow, Pullman and Seattle.

One convention center provides banquet facilities for up to 1,000 with seating capacity for meetings for up to 1,200 people.

Many workers living in the Coeur d'Alene area commute, especially to the light metals industry located in Washington between Coeur d'Alene and Spokane and to the mining district in Shoshone County.

The County has 848,400 acres, of which 39 percent is farm land. The balance of the county, which is heavily forested, lies mostly in the Coeur d'Alene National Forest and areas supervised by the Idaho Department of Public Lands.

EMMETT

DEPARTMENT OF EMPLOYMENT
134 North Washington
Telephone: 365-5316
John Bowman, Manager

POPULATION

1960 Census	3,769
1970 Census	3,945
1980 Census (Preliminary)	4,605

AREA SERVED: Gem County.

GEOGRAPHY, CLIMATE: Gem County, with Emmett as the county seat, is located in the southwestern part of Idaho, 30 miles northwest of Boise. The elevation is 2,300 feet above sea level. The mean temperature is 58 degrees; average rainfall is 13 inches and average snowfall three to four inches. This makes an excellent climate for agriculture, especially for fruit growing.

MAJOR INDUSTRIES: The major industry in Gem County is agriculture, including general farming, fruit growing, livestock raising and dairying. Emmett is about 50 miles south of a heavily timbered area which supplies logs for Boise Cascade Corporation's sawmill located in Emmett. In addition to its lumber processing operation, this plant includes a laminated beam plant, a by-products division, and a plywood plant. The Creative Products plant manufactures wooden patio furniture. A new farm machinery manufacturer began operation in Emmett in 1981. Stokely-Van Camp, Inc., cannery operates seasonally in Emmett, canning sweet corn and fruit. Ola Lumber Company carries on a small seasonal logging operation in the northern area of the county.

OCCUPATIONS: A shortage of unskilled and harvest workers usually exists during the cherry and prune harvests. Theres is generally a surplus of unskilled workers during the winter months. Demand for sawmill workers is generally stable except during August, September, and October, when demand increases because of increased production and higher turnover.

UNIONS: Lumber and Sawmill Workers Union, Local No. 2816; A.F. of L., C.I.O., Blue Mountain Council; Stokely-Van Camp cannery workers represented by AFL-CIO Teamsters Local No. 670.

HOUSING: Emmett has three motels, three trailer courts and several cabin courts. Rental housing ranges from $150 to $300 per month for two- and three-bedroom units. One-bedroom apartments and houses rent from $125 to $250 per month. Several condominium-type apartment complexes are also available. Their one- and two-bedroom units range from $140 to $285 a month. A total of eight mobile home courts are located within Gem County.

A farm labor camp consisting of 40 two-room apartments is located two miles east of Emmett. This camp can accommodate about 150 migrant seasonal workers.

FACILITIES: Emmett has municipal water and sewage systems, including a lagoon-type disposal plant. Natural gas is piped to most of the city.

TRANSPORTATION: A commuter bus serves the Boise area on a daily basis. Emmett is served by spur lines of the Union Pacific Railroad with daily runs from Nampa and Weiser. Daily runs are scheduled to and from Horseshoe Bend, Banks, Smiths Ferry, Cascade, Donnelly, Lake Fork, and McCall. An airport serving small aircraft is located southwest of the city.

MEDICAL AND HOSPITAL FACILITIES: The Emmett area is served by eight doctors, four dentists, three optometrists, and a chiropractor. A modern 48-bed hospital was opened October 1, 1963. A 48-bed nursing home is located adjacent to the hospital. A second nursing home, accommodating 30 patients is located one mile north of the city.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: The Gem County school district includes one high school, a junior high school and a grade school located at Emmett. There are about 20 churches in the area representing Protestant and Catholic denominations.

Emmett has a municipal park, playground, and swimming pool. A small picnic park area is maintained by the Bureau of Reclamation at the site of Black Canyon Dam, six miles north of Emmett. A larger picnic park area, equipped with outdoor fireplaces and boating docks, is located about one mile above Black Canyon Dam, where the reservoir offers excellent swimming and boating facilities. A nine-hole municipal golf course is located at the airport, three miles southwest of the city.

OTHER: Emmett is the home of the annual Cherry Festival, which is well known throughout the state. This festival follows the sweet cherry harvest, usually during the latter part of June.

GOODING

DEPARTMENT OF EMPLOYMENT
163 Main Street
Telephone: 934-5611
Donna Shaffer, Manager

POPULATION
1960 Census **2,750**
1970 Census **2,599**
1980 Census (Preliminary) . **2,949**

AREA SERVED: Gooding and Camas Counties.

GEOGRAPHY, CLIMATE: This area is located in south central Idaho on U.S. Highways 20 and 26 and State Highway 46. The mean annual temperature is 50.5 degrees with an average rainfall of 9.27 inches. Elevation is 3,562 feet above sea level.

MAJOR INDUSTRIES: Farming and livestock raising are the basis of this area's economy. Trout raising on the Snake River is a major economic factor.

OCCUPATIONS: Increasing agricultural technology and a shrinking population base eliminated shortages of workers except for seasonal demands in potato harvesting. There is no industrial growth likely in the near future, although Idaho Power is considering the construction of a large coal-fired power plant.

UNIONS: No union offices are located in this area. However, many workers are AFL-CIO affiliated.

HOUSING: Gooding has two motels with an approximate capacity of 50. All housing is available at reasonable prices. There are no farm labor camps.

FACILITIES: Gooding is located on the Union Pacific mainline and served by several truck lines. Idaho Power Company and Intermountain Gas Company serve the area.

TRANSPORTATION: Union Pacific Railroad serves the area with the closest station at Shoshone (16 miles east of Gooding). Shoshone also serves as an AMTRAK Depot. Trailways buses stop in Gooding. The Gooding airport has no scheduled stops.

MEDICAL AND HOSPITAL FACILITIES: Gooding is served by a county hospital, four medical doctors and two dentists.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: In addition to a high school system, the Idaho State School for the Deaf and Blind is in Gooding. Most major denominations have churches here. All types of outdoor recreation are available in the area and Gooding has an indoor movie theater and bowling alley.

GRANGEVILLE

DEPARTMENT OF EMPLOYMENT
102 North College Street
Telephone: 983-0440
John K. Purdy, Manager

POPULATION
1960 Census 3,642
1970 Census 3,636
1980 Census (Preliminary) . 3,666

AREA SERVED: Idaho and Lewis Counties.

GEOGRAPHY, CLIMATE: Idaho County is located in north cental Idaho and is bordered on the east by Montana and on the west by Oregon. Elevation in the county varies from 1200 feet to 9000 feet. The mean annual temperature is 46.6 degrees with an annual rainfall of 22.1 inches. Within its boundaries lie the deep canyons and valleys of the Snake, Salmon, Selway, Lochsa, and Clearwater Rivers. Nearly half of the total acreage is commercial forest land owned by the Federal Government and managed by the Nezperce, Payette, Bitterroot, and Clearwater National Forests.

MAJOR INDUSTRIES: Logging, lumber manufacturing and agriculture are the principal industries of the area.

OCCUPATIONS: Agriculture consists primarily of family owned and operated farms. Lumbér manufacturing provides year-round employment. Logging is highly seasonal. Labor surpluses are common in most industries during winter months. The long term forecast is for a decline in logging and lumber manufacturing as resources decline. There has been a small increase in various other minor industries.

UNIONS: Approximately five percent of the labor force belongs to unions. There are no union offices in this area. Union members are represented by union locals in Lewiston, Boise, and Spokane, Washington.

HOUSING: Grangeville has five motels with a total of 60 rooms, and three trailer parks. Rental housing is available with one- and two-bedroom units renting for $125 to $300 per month and three-bedroom units renting for $200 to $350 per month. Selling price for homes ranges from $15,000 to $125,000.

FACILITIES: The Camas Prairie Railroad serves Grangeville three times weekly but has no passenger service. The Star Motor Freight serves the area daily. UPS also serves the area daily for freight transportation. Grangeville has modern water and sewage facilities. Electricity is provided by Washington Water Power Company and R.E.A. Natural gas has not been provided to this area except by tanks.

TRANSPORTATION: The airport runway has been lighted and extended to accommodate Executive Jet aircraft. Northwest Stage Lines serves Grangeville daily with one northbound and one southbound bus each day.

MEDICAL AND HOSPITAL FACILITIES: Grangeville has one general hospital with a 45-bed capacity, six doctors, three dentists, one chiropractor, two nursing homes, and a medical laboratory.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: There are high schools in Grangeville, Riggins, Cottonwood, Craigmont, Nezperce, Kamiah, and Kooskia. All areas except the extremely remote areas are served by adequate elementary schools. There are also some parochial schools (Catholic) in the area.

Grangeville has a public library, a movie theater, a bowling alley, a heated outdoor swimming pool, lighted athletic field, golf course, lighted ski course with T-bar and rope tow, five tennis courts, and two parks. A portion of the Selway-Bitterroot Wilderness Area is in Idaho County and abounds with big game, including deer, elk, moose, bighorn sheep, and mountain goats. Its 1,500 miles of mountain streams and rivers offer excellent trout, salmon, and sturgeon fishing. Areas for scenic backpacking and cross country skiing are abundant.

IDAHO FALLS

DEPARTMENT OF EMPLOYMENT
150 Shoup Avenue
Telephone: 525-7000
Bill Parenteau, Manager

POPULATION
1960 Census **33,161**
1970 Census **35,776**
1980 Census (Preliminary) **39,590**

AREA SERVED: Bonneville, Jefferson and Clark Counties.

GEOGRAPHY, CLIMATE: The area is bounded on the east by Wyoming and the north by Montana. Idaho Falls, located on Interstate 15, U.S. Highways 191, 20, and 26, is the gateway to Yellowstone and Grand Teton National Parks, to the north and east. The county seat of Bonneville County, Idaho Falls, is at the midpoint between Sun Valley and Craters of the Moon National Monument on the west and the Jackson Hole and Yellowstone Park areas on the east.

The average daily maximum temperature is 58 degrees, average daily minimum 31. Normal annual precipitation is 9.97 inches. The dry, sunny atmosphere of Idaho Falls makes maximums and minimums less noticeable than in humid climates; average summer humidity at noon is 28 percent. Nights are cool in the summer.

MAJOR INDUSTRIES: There are 66 manufacturing firms in the community. The main sources of income for Idaho Falls and its trading area are agriculture (including livestock raising), manufacturing, atomic energy research and recreational travel. Principal products: meat, cement products, housing equipment and foundary products. Idaho Falls is the retail trade center for ten counties.

OCCUPATIONS: The Idaho Falls area is subject to annual seasonal variations in worker demand and supply that are normally associated with the seasonal industries listed above. A trend toward stabilization in production of food products becomes more evident yearly. Shortage and surplus occupations are principally associated with agriculture.

UNIONS: Idaho Falls has a Central Labor Council, a Building Trades Council, a Carpenters Apprenticeship and Training Coordinator and the following unions: Atomic Workers, Carpenters, Teamsters, Laborers, Plumbers, Painters, Machinists, Operating Engineers, Musicians, Bartenders — Hotel and Restaurant, Typographical, Barbers, Meat Cutters, Bakery. Some of these unions are handled through Pocatello, Idaho.

HOUSING: Rentals for one- and two-bedroom apartments and duplexes range between $115 and $355 per month. Rentals for two- and three-bedroom houses range between $200 and $650 per month. Sale prices of homes range from $45 to $50 per square foot. There are four hotels and 17 major motels in Idaho Falls, providing a complete range of prices and accommodations.

FACILITIES: Power: Idaho Falls has under construction three hydro-electric power plants. None are operating at present. The city currently is contracting power from the Bonneville Power Administration.

Water: The City of Idaho Falls operates 13 wells with a total capacity of 42,350 gallons a minute.

TRANSPORTATION: Air transportation is provided by Republic Airlines, Western Airlines, Continental Airlines, Cascade Airways, and Red Baron Flying Service. The municipal airport, Fanning Field, 770 acres, features a 9,000-foot main runway. Charter air service, aviation gasoline, F.A.A. approved repair service, aerial dusting and spraying, F.A.A. certificate flight instruction, and car rental agencies are all available. A cafe, F.A.A. Communications Station, coffee shop, and lounge are located at the field. A terminal Visual Oral Range Facility, Manual Approach Control, and an airport traffic control tower operated by F.A.A. are provided for air traffic.

Idaho Falls is served by Union Pacific Railroad and by 17 trucking lines.

Bus: Star Valley-Jackson Lines, Greyhound Bus Lines, and Salmon Stage Lines. EG & G Idaho, Inc., operates a fleet of buses for the U.S. Department of Energy to transport workers to and from the Idaho

National Engineering Laboratory.

Rail: Union Pacific Railroad.

Taxi: Yellow Cab.

MEDICAL AND HOSPITAL FACILITIES: Idaho Falls has two modern hospitals with a total of 276 beds and excellent laboratory facilities. Two medical clinical laboratories and six dental laboratories are located in Idaho Falls. There are over 100 physicians and surgeons, including specialists in all major medical fields, 45 dentists, 4 orthodontists, 12 optometrists, 1 osteopath, 7 chiropractors, 2 chiropodists, 10 physical therapists, and 4 nursing homes. The Child Development Center, Speech and Hearing Center, Mental Health Center, and the Alcohol Rehabilitation Center are located in Idaho Falls.

SCHOOLS, CHURCHES AND RECREATION FACILITIES:

Churches: Idaho Falls has more than 50 churches with nearly all major denominations represented. The predominant faith by number is the Church of Jesus Christ of Latter Day Saints.

Schools: Two school districts provide 22 elementary schools, 3 junior high schools, and 3 high schools. There are facilities for the physically and mentally handicapped. Two private elementary and three parochial schools are also available. Eastern Idaho Vocational-Technical School is one of the nation's finest, providing instruction in a number of areas from nursing to nuclear technician training. Brigham Young University-Ricks, Idaho State University, and the University of Idaho offer noncredit vocational courses and college extension credit courses. One business college and three beauty schools operate in Idaho Falls. A kindergarten program is available in both schools districts. Adult basic education courses and GED classes are available.

Recreational Facilities: Within easy access are: Yellowstone National Park, Grand Teton National Park, Jackson Hole, Island Park Recreational Area, Palisades Dam Recreational Area, Heise Hot Springs, Sun Valley Resort Area, Craters of the Moon National Monument, Ririe Dam Recreation Area, Kelly Canyon Ski Area, Grand Targhee, and Noise Park.

These scenic and recreational attractions and ten ski areas are within a three-hour drive from Idaho Falls. The west entrance to Yellowstone Park is open from May 1 to late fall; the south entrance opens in May. Winter usage of park facilities is growing with the increasing popularity of snowmobiles. The City of Idaho Falls owns and maintains a 135 x 54 foot swimming pool and a smaller pool. The city golf course, Pinecrest, has 18 holes, as does the course at the Idaho Falls Country Club. The City Recreation Center has a handball court. The City maintains summer recreation programs, basketball leagues (both junior and adult), and arts and crafts classes. A 445-acre parks and playground system throughout the city includes a zoo, amusement park, baseball fields, rodeo grounds, picnic and barbeque areas, and ice skating rinks.

Professional baseball is played in the city by the Idaho Falls Angels of the Pioneer "rookie" league. Little League baseball, Grid Kids football, and junior hockey and soccer leagues are active. Sports include hunting, fishing, boating, horseback riding, tennis, softball, golf, bowling, skiing, cutter racing, horseshoe pitching, and roller skating. There are rifle, pistol, golf, archery, kennel, camera, boat, ski, model railroad, model plane, and sports car clubs. The Civic Auditorium has attractive seating for cultural events. A community concert association is active, as are the Idaho Falls Symphony Concert Orchestra, a little theater group, schools of dance, and a barbershop singing group. The City has a library and 12 theaters.

OTHER: Idaho Falls is the location of the Idaho Operations office for the U.S. Department of Energy, which administers the 894 square-mile Idaho National Engineering Laboratory (INEL), located 29 miles west of the city. INEL was established in 1949 for the construction, testing, and operation of new types of nuclear reactors and equipment. The INEL and its contractors currently employ approximately 9,980 permanent operating personnel and 500 to 1,000 construction and temporary workers. Major INEL operating

contractors are: Argonne National Laboratory, Westinghouse Electric Corporation, E G & G Idaho, and Exxon Idaho Nuclear Company. The broad mission of the INEL is to develop economic energy resources by applying engineering and scientific expertise to Department of Energy's research and development programs including nuclear energy, geothermal and advanced energy sources, environment and safety, and national security applications.

Most fraternal, service, and veterans' organizations have affiliates in Idaho Falls.

Three television stations offer network programming, three AM radio stations and two FM stations serve the area. Idaho Falls has a daily newspaper.

JEROME

DEPARTMENT OF EMPLOYMENT
125 1st Avenue East
Telephone: 324-2383
Joe Skaug, Manager

POPULATION
1960 Census 4,761
1970 Census 4,183
1980 Census (Preliminary) . 6,891

AREA SERVED: Jerome and Lincoln Counties.

GEOGRAPHY, CLIMATE: Jerome is the county seat for Jerome County, located in the south central part of the state. The mean annual temperature is 50 degrees, average rainfall is 8.26 inches; the growing season is about 155 days. Elevation is 3,740 feet above sea level.

MAJOR INDUSTRIES: Tupperware, Moore Business Forms, and agriculture.

OCCUPATIONS: The economy of Jerome is based primarily on agriculture; therefore, the principal worker demand is for agricultural workers. There is a continuing demand for experienced general farm hands and irrigators during the growing season and seasonal demands for harvest help in the potato and hay harvests.

UNIONS: There are no union headquarters in Jerome.

HOUSING: Rental housing is readily available. Hundreds of housing units have been built in the past four years.

Hazelton has a large low income housing complex used mainly for migrants.

A farm labor camp is located on the outskirts of Jerome.

FACILITIES: Idaho Power Company supplies the area with electricity; natural gas is supplied by Intermountain Gas Company. Jerome has municipal water and sewage systems. The Union Pacific Railroad serves the Jerome area by a loop from Minidoka to Bliss. Garrett Freightlines, Pacific Intermountain Express, Consolidated Freight Lines and Ida-Cal Freightlines all serve the area. Jerome is served by two local radio stations and a weekly newspaper.

TRANSPORTATION: Jerome is served by the Union Pacific Railroad, Greyhound Bus Lines, Trailways Lines, and a municipal airport. Twin Falls, 13 miles away, has regularly scheduled mainline flights.

MEDICAL AND HOSPITAL FACILITIES: Jerome has five doctors and three dentists. A fully accredited 50-bed hospital and extended care unit is operated by the Benedictine Sisters.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: There is one high school, one junior high school, and three elementary schools. This system serves about 2,400 students. Eighteen churches in the city represent the major denominations. Six of the churches have been constructed since World War II.

One park, with a heated municipal pook, two playgrounds, and tennis courts are available. There is a bowling alley, three cinemas, and country club with a nine-hole golf course. Jerome is located 75 miles from Sun Valley Resort. Fishing in the Snake River continues on a year-round basis and many fishing streams and lakes are nearby. Jerome has some of the best pheasant hunting in the nation and there is good duck, goose, partridge, and grouse hunting. Deer, elk, and antelope hunting areas are within short driving distance.

Tupperware Company also has large recreational facilities for employees and on a part-time basis to all local citizens.

OTHER: The population has nearly doubled in the past five years in Jerome. Many new businesses have located in Jerome during that time period.

Gary Beck, Manager

POPULATION
1960 Census **5,061**
1970 Census **3,811**
1980 Census (Preliminary) . **3,417**

AREA SERVED: Shoshone County, except for the Avery-Clarkia area, comprising approximately 300 square miles.

GEOGRAPHY, CLIMATE: Shoshone County is located in the eastern half of the North Idaho panhandle. Elevation is 2,728 feet above sea level. The mean annual temperature is 45 degrees and the average annual rainfall is 35 inches.

MAJOR INDUSTRIES: Mining nonferrous metals, primarily lead, zinc and silver, is the major industry in the area; logging and mining equipment manufacturing are supporting industries. Retail trade and tourism are also major supporting industries. At Kellogg, ore processing and logging are also important segments of the economy of Shoshone County.

OCCUPATIONS: Primary occupations consist of those related to the mining industry, including experienced hard-rock miners, laborers and underground timbermen. Seasonal demands exist for sawmill workers and forest workers such as power saw operators, log truck drivers, and jammer operators.

UNIONS: Unions in the area include United Steelworkers of America, A.F. of L. C.I.O. Steelworkers International; Steelworkers Local 18 (Galena); Steelworkers Local 5089 (Sunshine); Steelworkers Local 5114 (Helca); Steelworkers Local 7854 (Bunker Hill Co.) and Steelworkers Local 8160 (Kellogg Transfer Co.); Culinary Workers and Bartenders Union A.F. of L., 328 and A.F. of L. Carpenters Union Local 220.

HOUSING: Shoshone County has a total of 14 motels and hotels, with a combined total in excess of 230 available units. Furnished and unfurnished apartments and houses are available for rent and purchase at reasonable cost.

FACILITIES: Utilities are provided by Central Shoshone County Water District, Citizens Utility Company, Pinehurst Water District, Rose Lake Water Association, South Fork Sewer District and Washington Water Power Co. Freight service is offered by Union Pacific Railroad, Consolidated Freight Lines, Kellogg Moving and Storage, Bekins, Grebil Inc., Wallace Coleville Motor Freight, Mayflower Van Lines and Inland Motor Freight.

TRANSPORTATION: Transportation facilities serving the area include Union Pacific Railroad, Greyhound bus lines, and a taxicab service.

MEDICAL AND HOSPITAL FACILITIES: Shoshone County is served by two hospitals, East Shoshone and West Shoshone Hospitals. Fourteen doctors serve the area and an excellent Medical Clinic with a staff of 10 physicians is located in Kellogg. Seven dentists have practices in the county as well as four optometrists.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: Twenty churches of various denominations are located within Shoshone County. The school system is comprised of 10 elementary and five secondary schools within the county.

Both Kellogg and Wallace have a public swimming pool. Excellent skiing facilities are offered at Lookout Pass, 14 miles east of Wallace, and at Siverhorn Ski Area just south of Kellogg. The area supports Little League, Babe Ruth and American Legion baseball teams, and a continuous recreational program for school age children. There are extensive camping and picnic facilities located throughout the area. Shoshone County is one of the finest fishing and big game hunting areas of North Idaho.

OTHER: Shoshone County receives excellent television service from four stations in Spokane, Washington, including one educational station. Cable television service is also available. One radio station is located in Osburn, and excellent reception is available from several Spokane, Washington, and Coeur d'Alene radio stations. There are numerous points of historical interest throughout the area including the oldest building in Idaho (a Jesuit mission) and an excellent museum.

KETCHUM

DEPARTMENT OF EMPLOYMENT
220 Fourth Street East
Telephone: 726-9388
Tom Valasek, Manager

POPULATION

1960 Census	746
1970 Census	1,454
1980 Census (Preliminary)	2,200

AREA SERVED: Blaine County. Major towns are Ketchum, Sun Valley, Hailey, Bellevue, and Carey.

GEOGRAPHY, CLIMATE: Southern part of county—desert and foothills, flat irrigated farmland, elevation 4000-5000 feet. Northern part of county—mountainous with Ketchum and Sun Valley. Elevation 6000 feet; Bald Mountain, 9200 feet. Ketchum average summer temperature high is 78 degrees, low 40 degrees; winter high 33 degrees, low 6 degrees. Average annual snowfall, 123 inches; rain 7.1 inches.

MAJOR INDUSTRIES: Major industry is tourism. Winter mostly related to ski tourism and related facilities such as lodges, motels, restaurants, sporting goods shops. Summer season tourism includes large conventions and family groups attracted by tennis, golf, fishing, camping and other recreational activities. Building construction and agricultural industries (alfalfa, grains, cattle and sheep ranches) are prevalent during the summer.

OCCUPATIONS: Winter: occupations related to ski tourism employ most residents in lodging, recreation, and restaurant facilities. Summer: Recreation expands to include tennis, golf, fishing, and other outdoor activities. The U.S. Forest Service employs campground and trail maintenance personnel. All types of construction workers, farm hands are employed. Shortages—cooks, dishwashers, housekeepers; surplus—waiter/waitresses, bartenders, and carpenters.

UNIONS: Not active in area with exception of occasion summer construction projects. Union members are served by Pocatello Union offices.

HOUSING: There are 24 different lodging facilities in the Ketchum-Sun Valley area. Facilities in Ketchum can accommodate about 2,800 people, and Sun Valley/Elkhorn can accommodate 4,300.

Furnished and unfurnished apartments are available usually year-round with the exception of winter season when rents are higher and housing is difficult to find. There are several trailer parks available with short and long term rentals.

Sun Valley Resort has dormitory rooms available for their own employees.

FACILITIES: Electricity—Idaho Power Company. Gas—Intermountain Gas Company. Freight is mostly by truck, although a spur of the Union Pacific Railroad delivers some supplies once per week.

TRANSPORTATION: AMTRAK stops in Shoshone, 60 miles from Ketchum. There is a private airport in Gimlet, short runway, no commercial service. Friedman Memorial Airport in Hailey has space for private planes and jets, and is served by Sun Valley Key Airlines with connecting fights to Boise, Twin Falls, and Salt Lake City. The Sun Valley Taxi-Limo meets flights at Hailey and Twin Falls airports. Sun Valley Stages take passengers to airport and bus depot in Twin Falls.

MEDICAL AND HOSPITAL FACILITIES: The Moritz Community Hospital at Sun Valley has 25 beds. Blaine County Hospital in Hailey has 15 beds. There are 15 practicing physicians in Blaine County, and 6 dentists.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: There are 15 churches of all denominations throughout Blaine County. There are four elementary schools, one junior high school, one high school, and a private school for grades 7 through 12. The area has unlimited outdoor recreation facilities, and almost all equipment can be rented in the area.

OTHER: World famous Sun Valley ski area and gateway to the Sawtooth National Recreation Area.

Clarkston	6,176
1970 Census	
Lewiston	26,068
Clarkston	6,312
1980 Census (Preliminary)	
Lewiston	27,986
Clarkston	6,903

AREA SERVED: Nez Perce County, Winchester in Lewis County, Kendrick and Juliaetta in Latah County. Services are also rendered to residents of Clarkston and Asotin in Asotin County, Washington, and Pomeroy in Garfield County, Washington.

GEOGRAPHY, CLIMATE: Lewiston, the county seat of Nez Perce County, is located in north central Idaho, and is the largest economic center between Spokane and Boise. Nez Perce County is bordered on the west by Oregon and Washington and is separated from them by the Snake River. Lewiston is situated at the confluence of the Snake and Clearwater Rivers. The elevation at Lewiston is 738 feet above sea level, increasing in rural areas to elevations up to 1800 feet. Monthly normal temperatures range from 30.7 degrees in January to 73.8 degrees in July. Average annual precipitation is 13.24 inches. Normal snowfall per year is 18.8 inches. January is the month of the greatest snowfall with a normal of 7.8 inches. Lewiston, Idaho and Clarkston, Washington form the Lewiston-Clarkston labor force area. The Snake River is the state boundary although it has not bearing on the economic community.

MAJOR INDUSTRIES: The major industries are lumbering and manufacturing of wood products including paper and tissue products. Potlatch Corporation is the largest concern in this field, having a large sawmill, veneer and plywood plant, a pulp and paper plant, and a tissue mill. These plants employ numerous workers, with many additional workers engaged in logging operations in adjacent areas. Wholesale-retail and agriculture are also leading industries in the Lewiston area. Major agricultural products are grain, livestock, and green peas. Lewiston has two livestock sales yards, which are considered to be among the largest in the Northwest. Other important industries include food processing, manufacturing of small arms ammunition, construction and tourism.

Inland port facilities have been developed at Lewiston and Clarkston to handle water transportation between here and the Pacific Ocean. The advent of water transportation has had a very favorable effect on the economy of the Lewiston-Clarkston area, as well as the surrounding counties. It should continue to have a great effect in the years to come.

OCCUPATIONS: Because of the high degree of mechanization in the agriculture industry, disparity between supply and demand have been greatly reduced and stabilized in the past few years. The greatest fluctuations in labor supply and demand occur in the logging, lumber, and food processing and construction industries. These are due primarily to seasonal weather factors. The harvest and freezing of green peas occurs in the latter part of June and is usually completed by the end of July. Normally logging operations are reduced temporarily during November and December until the ground freezes solid. In March and April logging is usually stopped again until about the first of June or as soon as the ground dries enough to allow the timber activities to resume. July, August, and September are the months of highest employment. Most employment in heavy construction is curtailed or suspended during periods of bad weather conditions.

UNIONS: There are many occupations in the Lewiston-Clarkston Valley that are partially represented by labor unions. Most union members are employed in the construction, lumber and wood products, paper and allied products, and transportation industries. There are many local union offices located in Lewiston, but their number is shrinking. Many union locals are moving to Spokane, Washington.

HOUSING: There are twenty hotels and motels in the Lewiston-Clarkston area with approximately 800 rooms. Rental housing including furnished and unfurnished apartments is available. There are homes for purchase in most cost ranges.

FACILITIES: The Washington Water Power Company distributes both electric power and natural gas. The City of Lewiston has its own water distribution plant and lines. The Clearwater Power Company, an R.E.A. organization, supplements the area power service to rural users. The area is served by the Pacific Northwest Bell Telephone System. There is one television station in Lewiston with additional T.V. services provided by Teleprompter Cable TV and the Orchards Community Television Association. Lewiston is served by several major truck freight lines and numerous smaller lines representing most major national companies. The Burlington Northern and Union Pacific Railroads, as well as their mutually owned subsidiary, the Camas Prairie Railroad Company, haul freight to and from Lewiston. Barge service for grain from Lewiston to west coast terminals is also available. This water transport service is utilized by grain growers as far away as Montana, North Dakota, and South Dakota.

TRANSPORTATION: Lewiston is served by Republic Airlines and Cascade Airways, Inc., with flights to Boise, Spokane, Portland, Seattle, and other points. Private airlines provide chartered air service. Greyhound Bus Lines furnishes scheduled service to other areas. Lewiston is served by one taxicab company. There is no railroad passenger service.

MEDICAL AND HOSPITAL FACILITIES: Two hospitals with 190 beds serve the Lewiston-Clarkston area. There are approximately 70 physicians and surgeons, 2 osteopaths, 13 chiropractors, 31 dentists, 4 pediatricians, and 12 optometrists in the Lewiston-Clarkston area. Three nursing homes licensed for Medicare also serve the area.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: There are ten elementary schools, three junior high schools, two high schools, and six parochial schools in Lewiston and Clarkston, the majority of which are in Lewiston. Lewis-Clark State College has a growing vocational education program which offers a wide variety of one and two year courses. The Clarkston branch of Walla Walla Community College also offers a wide variety of courses. These range from automobile mechanics to police training. Both the University of Idaho at Moscow and Washington State University at Pullman are within commuting distance of Lewiston. One beauty school and a private business college are located in Lewiston. There are churches in Lewiston and Clarkston. All major denominations are represented. Recreational facilities include numerous park areas and tennis courts, two public swimming beaches, three outdoor swimming pools, four golf courses, two indoor theaters, two outdoor theaters, approximately 50 civic and fraternal organizations, three libraries, a Boys Club, Girls Center, Clarkston Youth Center, Asotin Recreation Center, skating rink, gun club, shooting range, and several boat and horseback riding clubs. Lewiston is the gateway to Hells Canyon and Selway-Bitterroot Wilderness area—both of which offer many thousands of acres of recreation. The two rivers offer excellent year-round fishing and the nearby mountains offer the outdoor enthusiast hunting. The slack water created by the Lower Granite Dam supplies many acres of additional recreational activities.

OTHER: Lewiston is Idaho's only port city. Slack water navigation is in effect from the three local ports to Portland. Paper products, wheat, logs and wood chips have made up the bulk of the cargo to date.

McCALL

DEPARTMENT OF EMPLOYMENT
Village Square
Telephone: 634-7102
Jim Lowery, Manager

POPULATION
1960 Census 1,423
1970 Census 1,758
1980 Census (Preliminary) . 2,188

AREA SERVED: Valley County and part of Adams County.

GEOGRAPHY: The area is located in west central Idaho. Valley County contains 2,535,900 acres of which 87 percent is federally owned and 3 percent is state owned. Of the remaining 292,000 acres, approximately one-fourth is owned by a single corporation. The elevation of the county ranges from 4,500 feet at the south edge to over 9,300 feet in the Stibnite and Big Creek areas. The majority of the country is mountainous with many streams, mountain meadows, forests, and lakes.

MAJOR INDUSTRIES: Primary industries include lumber mills and logging. Approximately 45 percent of the labor force is employed in lumbering related occupations. A large number of the U.S. Forest Service employees work in the area managing federal lands and controlling forest fires in the northwest area.

OCCUPATIONS: The majority of occupations are seasonal in nature. Primary occupations are logging related, Forest Service workers, and service related activities such as waitresses, maids, and bartenders.

HOUSING: Valley County has 14 motels. There are a few small apartments available. There are several condominiums, most of which are expensive and in great demand. Housing in the McCall area is very tight.

FACILITIES: The area is served by Idaho Power Company, Cal-Gas, Continental Telephone Company, and Petrolane Gas. A 5,200-foot runway at the edge of McCall serves as an aerial gateway to vast Idaho wilderness and the primitive area. McCall's water supply is taken from the Payette Lakes. The city of McCall provides water and sewage service.

TRANSPORTATION: Bus transportation into McCall is available. No public transportation exists in this area.

MEDICAL AND HOSPITAL FACILITIES: McCall and Cascade are served by local physicians and surgeons. McCall Memorial Hospital is located in McCall, and Valley County Hospital is at Cascade. A nursing home, Payette Lakes Care Center, and a medical clinic are located in McCall.

SCHOOLS, CHURCHES, AND RECREATION FACILITIES: Valley County has two school districts; McCall-Donnelly and Cascade. Each district has an elementary, junior high, and high school. Churches in the area are: Assembly of God, Latter-Day Saints, Community Christian, Lutheran, Episcopal, United Church of Christ, and Catholic.

Recreation areas are Warm Lake, Deadwood Reservoir, Payette Lakes, Brundage Ski Area, Cascade Reservoir, and Ponderosa State Park.

MEDIA: The area is served by KMCL AM Radio in McCall. Also, the **Central Idaho Star News** is published weekly. Cable television service will be available in the fall of 1981.

MOSCOW

DEPARTMENT OF EMPLOYMENT
221 East Second Street
Telephone: 882-7571
Phyllis Dunn, Manager

POPULATION
1960 Census **11,183**
1970 Census **14,146**
1980 Census (Preliminary) **16,513**

AREA SERVED: Latah County and Elk River in Clearwater County.

GEOGRAPHY, CLIMATE: Moscow is the county seat of Latah County. It lies in the north central part of the state, three miles east of the Washington border. Moscow is located on U.S. Highway 95. The elevation is 2569 feet above sea level. The average temperature is 47 degrees, with highs in the mid-nineties and the lows about zero. The average rainfall is 23 inches.

MAJOR INDUSTRIES: Lumber production, agriculture and the seed and dry edible pea processing industries are the principal ones in the Moscow area. The trades and services industries, particularly those serving agriculture and education, are of prime importance in this trading center.

OCCUPATIONS: Numerous students from the University of Idaho remain here during the summer months. Winter usually brings a surplus of labor in the area as work is curtailed in the woods and in the construction industry. Continuing mechanization in agriculture, logging and construction is reducing the demand for unskilled workers even at peak times.

UNIONS: Construction workers and grocery store employees comprise most of the organized labor in the Moscow area. A few locals have representatives in Moscow, with others being represented by locals in Spokane, Lewiston and Pullman.

HOUSING: Rentals, although becoming more available as time goes on, are still difficult to locate, particularly during the school year. Apartments rent from $200 to $350 per month. University housing is adequate; there are 1,200 rooms for single students and 220 apartments for family housing. About six trailer courts with spaces for approximately 500 mobile homes are located in Moscow, with many others quite near the city.

FACILITIES: Electricity and natural gas are provided by the Washington Water Power Company. Telephone service is provided by General Telephone Company. The City of Moscow furnishes water, sewage disposal and, through a private contractor, garbage collection. A television cable system, which supplies access to ten separate channels, operates in Moscow. The Union Pacific, Northern Pacific, and Great Northern Railroads provide freight service. Garrett Freightlines also provides local and long distance freight service.

TRANSPORTATION: Cascade Airways offers 17 flights daily out of the joint Moscow-Pullman Airport; independent flying companies provide charter flights and other services. Taxis furnish local transportation. Transportation in all directions is available through Greyhound Bus Lines.

MEDICAL AND HOSPITAL FACILITIES: A modern nonprofit hospital with about 60 beds services the city and the surrounding communities. Each community has an ambulance service. There are three nursing homes, accommodating about 230 patients. The University of Idaho maintains an infirmary for students. There are 23 physicians and surgeons in the area, 14 dentists, 4 optometrists and 7 chiropractors.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: Moscow is the home of the University of Idaho with a 1980 enrollment of approximately 8000. The Moscow Public School System has a senior high school (grades 10-12), a junior high school (grades 7-9) and four grade schools. Both the Catholic Church and the Seventh Day Adventists operate grade schools.

The city provides a year-round recreational program for both children and adults. There are three city parks, one county park, located in the city, a municipal swimming pool, and two indoor theaters. There is a private 9-hole golf course, as well as the 18-hole

University course. There is a large indoor skating rink and a smaller one in one of the shopping malls. Hunting, fishing and hiking are available nearly. Most of the facilities of the University of Idaho are available to the public. University of Idaho plays and concerts, college athletic events, and the Community Concert Association's presentations are also available. Nearly all nationally recognized service organizations, veterans organizations and fraternal organizations are represented in Moscow.

Moscow has many churches, representing all major and some minor denominations and religious groups.

The City Public Library serves the City of Moscow and provides bookmobile service to the surrounding region. The University of Idaho Library is also open to the public.

OTHER: Moscow is the center of the seed pea industry of the United States, and has been called the dry pea capital of the world. Weather and soil conditions combine to create an unusually prosperous dry-land farming area here.

Latah County has great wealth in its clay. There is an unlimited supply of highest quality clay for industrial purposes. Some excellent fire brick is produced here, as well as other clay products.

There are two radio stations here, one commercial and the other is operated by the students at the University of Idaho. A daily newspaper, the **Daily Idahonian**, is published here, and the **News Gazette**, a weekly, is published in Kendrick. The U. of I. also operates a television station.

MOUNTAIN HOME

DEPARTMENT OF EMPLOYMENT
575 North Third East
Telephone: 587-7911
Steven Waite, Manager

POPULATION
1960 Census **5,984**
1970 Census **6,451**
1980 Census (Preliminary) . **7,540**

AREA SERVED: Elmore County, and the eastern portion of Owyhee County including Grandview, Bruneau, and that part of Duck Valley Indian Reservation lying in Idaho.

GEOGRAPHY, CLIMATE: Mountain Home, the county seat of Elmore County, is located in southwestern Idaho, about 45 miles south of Boise. The elevation of Mountain Home is 3,145 feet above sea level. Winters are mild with little snowfall, and summers temperate with cool nights. The city is located on comparatively level terrain on the border of the Snake River Plains, 13 miles north of the Snake River. Within five to eight miles north, terrain becomes rather hilly, extending into mountain ranges reaching more than 10,000 feet in the northern part of the county.

MAJOR INDUSTRIES: Mountain Home Air Force Base, located ten miles from Mountain Home, is the largest employer in the area. The other major economic base is agriculture. Manufacturing industries are limited to potato processing, sawmill work, and a small electronics plant.

OCCUPATIONS: Due to the increasing degree of mechanization at area farms, labor demand has been reduced in the past few years. However, customary shortages and surpluses of labor still occur due to the seasonality of agriculture. Mountain Home also has seasonal surpluses of workers in construction, trade, service, and manufacturing when winter weather slows work activities.

UNIONS: There are no union offices located in Mountain Home but some of the area residents are members of many of the Boise-based unions.

HOUSING: There is presently no shortage of adequate housing in the area. Rental housing is now plentiful, with most apartment and house rentals ranging from $125 to $300 per month. New single-family dwellings and townhouses are available. There are thirteen motels and hotels and five farm labor camps located in the general area.

FACILITIES: Electrical power for Mountain Home is furnished by the Idaho Power Company, natural gas by the Intermountain Gas Company, and telephone service by the Mountain Bell Telephone Company.

TRANSPORTATION: Several air service firms operate from the Mountain Home Airport. However, area residents commute to the Boise Municipal Air Terminal for commercial air passenger service. AMTRAK provides passenger rail service. Union Pacific provides rail cargo service. Greyhound and Trailways Bus Lines furnish bus service to the community. Mountain Home is also served by one taxicab company.

MEDICAL AND HOSPITAL FACILITIES: Elmore Memorial Hospital and Nursing Home serves Elmore and Owyhee Counties. An additional hospital for military-related personnel is located at Mountain Home Air Force Base. There are seven physicians, seven dentists, two optometrists, and three veterinarians. Additional medical personnel are available at the Air Base.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: Mountain Home has one of the finest school systems of any community its size in the state. There are four grade schools, two junior highs and one high school. There are many churches representing more than 15 denominations. Mountain Home Public Library is owned by the city. This new and modern facility was constructed and opened to the public in 1976. The city of Mountain Home has a fine recreation program. Some of the finest hunting and fishing in the state is located within an hour's drive of the city. The Mountain Home Municipal Golf Course has nine holes and plans are being made to develop nine more. There are four parks and an outdoor swimming pool located within the city.

NAMPA-CALDWELL

DEPARTMENT OF EMPLOYMENT
Nampa-Caldwell Boulevard
Telephone
Art Thorsted, Manager

POPULATION

Nampa	
1960 Census	**18,897**
1970 Census	**20,768**
1980 Census (Preliminary)	**25,112**
Caldwell	
1960 Census	**12,230**
1970 Census	**14,219**
1980 Census (Preliminary)	**17,699**

AREA SERVED: Canyon County and part of Owyhee County.

GEOGRAPHY, CLIMATE: Located in southwestern Idaho, Canyon County is bordered on the east by Ada County, on the north by Gem and Payette Counties, on the south by Owyhee County, and on the west by Oregon. The area has hot summers and mild winters. The average growing season is 145 to 177 days.

MAJOR INDUSTRIES: The primary industries are agriculture and agriculture related, food processing, and mobile home manufacturing. Manufacturing industries located in Nampa and Caldwell include a sugar factory, potato processing plants, a cardboard container plant, a metal chimney manufacturer, meat packing plants, a concrete products plant, mobile home and recreational vehicle plants, a cheese factory, an electronics component manufacturer, and a nationally recognized book publisher. The Union Pacific Railroad has facilities in Nampa which include an extensive refrigerated box car operation.

OCCUPATIONS: The area experiences a seasonal pattern in employment. Peak employment periods occur in June, September, and October and correspond with peaks in agriculture and food processing activity. Continuing automation in seed and food processing plants is lessening the demand for unskilled workers.

UNIONS: The area is not highly unionized. Occupations represented by unions include electricians, carpenters, plumbers, meat cutters, steelworkers, operating engineers, grain millers, retail clerks, railroad workers, and food processors.

HOUSING: There are four motels in Caldwell and two hotels and seven motels in Nampa. There are two farm labor camps in the area. Homes can be purchased for between $30,000 and $200,000. One- and two-bedroom apartments and duplexes are available and rent for $150 to $400 per month. Two- and three-bedroom houses rent for $200 to $500 per month.

FACILITIES: The area is served by Idaho Power Company, Intermountain Gas, and Mountain Bell. The Union Pacific Railroad's main line serves Nampa. The city is an important terminal, having both repair shops and a central traffic control station.

TRANSPORTATION: The area is served by Greyhound, Trailways, Boise-Winnemucca Stages, AMTRAK, and taxi companies. There are airports at Nampa and Caldwell. Various freight trucking companies also serve the area.

MEDICAL AND HOSPITAL FACILITIES: Nampa has 52 physicians and surgeons, 25 dentists, 4 chiropractic physicians, 7 optometrists, an osteopath, 2 orthodontists, and a 162-bed hospital. The Caldwell Memorial Hospital, with 150 beds, has educational programs in inhalation therapy, practical nursing, medical secretary, and X-ray technology; and is qualified as a training institution for nurse anesthetists. The city has 44 physicians in major fields of medicine,

15 dentists, and several clinics. There are four nursing homes in Caldwell.

SCHOOLS, CHURCHES, AND RECREATION FACILITIES: Nampa has ten elementary schools, two junior high schools, a senior high school, five parochial grade schools, and a parochial high school. Caldwell has four public elementary schools, a junior high, a high school, three parochial schools, and the Merri-Lynn School for the Handicapped. The College of Idaho, a private liberal arts college sponsored by the Presbyterian Church, is in Caldwell. Northwest Nazarene College, a fully accredited four-year college, is in Nampa.

There are more than 100 churches in the two cities, representing most faiths. Each city maintains a recreation system with facilities for swimming pools, baseball and softball parks, playgrounds, golf courses, and tennis courts.

OTHER: The Idaho State School and Hospital in Nampa provides education, therapy, and medical services to approximately 800 retarded persons.

The Caxton Printers, Ltd., of Caldwell is one of the West's largest printers of books and school texts.

The area is served by five television stations—two of which, KIVI and KTRV are located in Nampa. Cable television service is also available to area residents. There are five radio stations in Nampa and Caldwell, and the **The Idaho Press-Tribune** is published daily.

OROFINO

DEPARTMENT OF EMPLOYMENT
153 Johnson Avenue
Telephone: 476-5506
Larry L, Sharrai, Manager

POPULATION

1960 Census	2,471
1970 Census	3,883
1980 Census (Preliminary)	3,711

AREA SERVED: Clearwater County and Peck Precinct of Nez Perce County.

GEOGRAPHY AND CLIMATE: Clearwater County extends eastward from the Clearwater River to Montana. Orofino's elevation is 1000 feet above sea level. The Weippe-Pierce area is 3300 feet above sea level. The eastern two thirds of the county is mountainous with peaks reaching more than 6000 feet. The population is concentrated in the western quarter of the county.

While temperature extremes run from 10 degrees below zero in winters to 100 above in summers, the mean January temperature is 35 degrees and the mean temperature for July is 75 degrees. Average precipitation at Orofino is 25 inches per year, 40 at Pierce. Summers are generally dry and comfortable.

MAJOR INDUSTRIES: The basic permanent industries are lumber and logging. Lumber and plywood production is carried out in one bandsaw mill and several smaller units; six fencing stock mills and a plywood plant at Pierce. Local logging supplies these operations and the bulk of the logs for the Potlatch Corporation mill at Lewiston. The Clearwater River drainage is the largest cedar producing area in the northwest.

Orofino is the administrative and supply base for the Clearwater National Forest and Clearwater Timber Association. The Idaho State Hospital carries a complement of 90. There is a growing volume of recreational an tourist interest in the area, which results in increasing demands on service industries.

The building of Dworshak Dam, 5 miles from Orofino and a steelhead hatchery at Ahsahka has been completed. Employment for the above projects averages 60 workers on a permanent basis.

OCCUPATIONS: A high seasonal swing in logging and lumber production results in a moderate demand for out-of-county areas to supply experienced loggers through the summer and early fall months. Administrative forestry units draw approximately 300 college students for forest maintenance and fire crews. The increasingly technical aspects of Forestry have created a growing demand for college level techniques in this field. Most other business and industry is in fair balance.

UNIONS: The permanent local industry is generally open shop. There is one unit of Lumber and Sawmill Workers at Ahsahka, and the Potlatch Corporation's logging unit at Headquarters has a contract with IWA-CIO. Most local craft tradesmen carry cards in their respective trade unions.

HOUSING: There are three motels in Orofino with a total of 52 rooms and a half dozen trailers converted for single room rentals. Rental housing is in short supply with rentals from $125 to $225 per month. There are five apartment houses. Space is available for perhaps 125 trailers in organized parks with installed facilities. Spaces rent from $30 to $50 per month. Many persons employed in this area commute from Kamiah and Lewiston.

FACILITIES: The Washington Water Power and Clearwater Power Companies supply electrical power to the surrounding countryside. Feeder lines and substation capacity sufficient for normal needs for the district have been augmented to supply electrical power needs for the Dworshak Dam projects and as feeder lines out of the area. The system is presently capable of supplying any incoming industry the valley is capable of developing.

Camas Prairie Railroad provides log transport from Orofino, Pierce and Headquarters. It ties into the main line at Lewiston. United

States Highway 12 provides a route for motor transportation to Missoula, Montana. This highway provides access to points east and west of Orofino and connects with U.S. 95-north-and-south at Lewiston. The Star Motor Freight Company serves the local area and connects with other auto freight lines at Lewiston.

TRANSPORTATION: There is no passenger rail service. The Orofino Airport provides one charter service company. Air service to mountain airstrips in the central section of the state comprises most local activity. One helicopter is available for hire at the airport.

MEDICAL AND HOSPITAL FACILITIES: Orofino has three doctors, four dentists, and two optometrists. The Idaho State Hospital has one doctor on its staff who would be available to the community in periods of emergency. The Clearwater Valley Hospital was built in 1957 and has a capacity of 35 beds. An additional wing could be added if needed.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: The local school district has two high schools and two junior high schools. Fourteen churches serve the Orofino area.

Recreational facilities include an eight-lane bowling alley, a nine-hole public golf course, a 100 by 60 foot outdoor swimming pool, and one theater. The Clearwater River and its drainage provides a wealth of easily reached areas for fishing, hunting and outdoor recreation. Dworshak Reservoir provides boating, fishing and waterskiing. There is a ski area in Pierce (Bald Mountain) with rope tow and T-bar lift, but no overnight accommodations.

PAYETTE

DEPARTMENT OF EMPLOYMENT
17 South 8th Street
Telephone: 642-3375
Edward A. John, Manager

POPULATION
1960 Census **4,451**
1970 Census **4,521**
1980 Census (Preliminary) . **5,448**

AREA SERVED: Payette County.

GEOGRAPHY, CLIMATE: Payette, the county seat of Payette County, is located in the southwestern part of Idaho on U.S. Highways 95 and 30, and State Highway 52. Payette is located on the Payette and Snake Rivers. The elevation is 2,150 feet above sea level. Annual mean temperature is 49 degrees; average precipitation is nine inches.

MAJOR INDUSTRIES: The major industries in Payette County are agriculture, trade, food products manufacturing, mobile home manufacturing, and wood products manufacturing.

OCCUPATIONS: The major occupations in Payette County are in agriculture, food processing and packing sheds, all highly seasonal. Due to the seasonality of employment, there is considerable fluctuation in the supply and demand of workers. During periods of high employment large numbers of migrant workers are needed. Mechanization will continue to reduce the need for these workers. In addition, light industry such as mobile home manufacturing, wood molding, and related supportive businesses are locating in the area.

UNIONS: A.F. of L. Carpenter, Local No. 426; Teamsters, Local No. 483, Boise, Idaho; A.F. of L. Amalgamated Meat Cutters of North America, Local No. 368, Boise, Idaho.

HOUSING: There are three motels with a total of 14 rooms. There is also a modern labor camp, operated by farmers, with 22 cabins, renting for $25 per week. There are many small apartments and homes which rent for $125 to $250 per month. Rental units become scarce during peak periods of employment.

FACILITIES: The city of Payette provides water service. The local sewage system is newly constructed and designed to accommodate a city of 15,000. Electrical power, with an adequate supply of future industrial growth, is provided by Idaho Power Company. Natural gas is supplied for industrial and residential use by Intermountain Gas Company. Freight services are provided by the Union Pacific Railroad, Garrett Freightlines, Consolidated Freightways, and Gibbs Trucklines. Local firms provide short and long distance hauling of specialized commodities, such as livestock, household furnishings, cement and fertilizer.

TRANSPORTATION: Passenger service is provided by the Greyhound Bus Lines. Air service is provided by West Coast Airlines through the airport in Ontario, Oregon.

MEDICAL AND HOSPITAL FACILITIES: Payette has two medical doctors, three dentists, two optometrists and two dental laboratories. The Holy Rosary Hospital in Ontario, Oregon, six miles from Payette, is available with efficient ambulance service.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: Payette has has twelve Protestant churches and a Catholic church. There are two grade schools, a junior high school and a senior high school. The city provides two city parks with playground and picnic facilities, a municipal year-round swimming pool with heated water, two sets of tennis courts, and a modern public library.

OTHER: The principal activities are livestock, fruit, and the raising and processing of row crops. These activities require approximately 1,000 additional workers during peak cultivating and harvesting periods and the local supply of labor must be supplemented by workers recruited from other states.

POCATELLO

DEPARTMENT OF EMPLOYMENT
430 North Fifth Avenue
Telephone: 233-3821
Larry L. Palmer, Manager

POPULATION

1960 Census	39,194
1970 Census	40,036
1980 Census (Preliminary)	46,340

AREA SERVED: Southeastern corner of Idaho consisting of six counties: Bannock, Bear Lake, Caribou, Franklin, Oneida and Power, with a total area of 7,296 square miles and a population of over 100,000. The area is bordered on the south by Utah and on the east by Wyoming.

GEOGRAPHY, CLIMATE: The elevation of Pocatello is 4,474 feet above sea level. The mean temperature is 47 degrees; average annual rainfall is 12.5 inches with an average 215 days of sunshine.

MAJOR INDUSTRIES: Pocatello has a varied industrial base including mining equipment manufacture, railroad transportation, major truckline terminals, the production of phosphate fertilizer and elemental phosphorus, electronic component manufacturing, pre-built housing manufacturing, Idaho State University, food processing, agriculture, wholesale and retail trade.

OCCUPATIONS: There are a great variety of occupations in the area. Food processing, construction and agriculture are affected by seasonal variations.

UNIONS: All major unions are represented in the area including 25 railroad and 40 non-railroad unions.

HOUSING: There are 30 motels in Pocatello with over 1,300 units. Rental living units vary from $100-$400 per month. Purchase prices for new single family homes ranged from $30,000 to over $150,000 in 1981.

FACILITIES: The Pocatello area is served by municipal water and sewage systems. Electricity is supplied by Idaho Power, natural gas by Intermountain Gas Company, telephone service by Mountain Bell. The city is at the junction of I-84 and I-86W, is served by Union Pacific Railroad, major trucklines including Garrett, Pacific Intermountain Express, Browning Freightlines, United Parcel Service, Consolidated Freightways and Interstate Motor Lines.

TRANSPORTATION: Airline service is supplied by Republic Airlines, Cascade Airlines, and Sky West offering flights to major cities in the west. Northwest Aviation provides charter service and a full range of mechanical services. The airport terminal is new and houses the Federal Aviation Agency and Federal Weather Bureau, as well as car rental agencies. Several millions of dollars have been spent in recent years to improve airport runways, taxiways, terminal facilities and aircraft control equipment.

Bus lines are Greyhound, Salmon River Stages, Bear Lake Stages, and Teton Stages. Employees at the Idaho National Engineering Laboratory on the Arco desert have a full schedule of buses operating between the site and Pocatello.

Pocatello has taxi and ambulance services.

MEDICAL AND HOSPITAL FACILITIES: There are two modern general hospitals with a combined capacity of 200 beds, and three nursing homes. There are 78 physicians, 46 dentists, 6 optometrists, 4 veterinary clinics, 13 prescription pharmacies, dental laboratories and optical services.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: Pocatello has 2 senior high schools, 4 junior high schools, 17 elementary and 2 parochial schools (Catholic and Lutheran) with combined enrollment of over 13,000. Idaho State University has an enrollment of over 8,000 and offers Bachelors and Masters degrees in a variety of fields through the Colleges of Liberal Arts, Business, Education, Pharmacy, Medical Arts and the Graduate School. Doctorate programs are offered in Philosophy, Arts and Education. The University operates a large vocational-technical school with over 20 vocational areas. There are three libraries in Pocatello (two public, one university) and three museums.

There are 84 churches, representing over 30 denominations as well as two religious institutes on the I.S.U. campus.

All major community service clubs are represented in Pocatello. Recreation facilities include nine theaters, 24 parks and playgrounds, a zoo, an amusement park, historical monument replica, an 18-hole private country club golf course, two 18-hole municipal golf courses, swimming pools, and tennis courts. There is a major ski area within 18 miles of the city, four bowling alleys, one roller skating rink and two auto racing tracks. Parimutuel horse racing and championship cutter racing are held at the fairgrounds. The city has a band, a symphony orchestra, Community Concert season and a city theater group. Plays and concerts are a year-round attraction at the University. Concerts by nationally known entertainers are regularly scheduled at the I.S.U. Minidome which seats 14,000 and was the nation's first collegiate covered sports facility. A full range of collegiate athletic events are held at Idaho State University.

Sports in the area include hunting, fishing, water and snow skiing, horseback riding, ice skating and hiking. Pocatello is located near national forest recreational areas as well as a number of natural hot springs resorts including Lava Hot Springs with an olympic-sized pool. Local recreational and educational programs include summer programs for children, community and continued education. Pocatello is the entrance way to Yellowstone Park, Grand Teton National Park, Craters of the Moon National Monument, Sun Valley and the Idaho Primitive Area.

There are 4 AM radio stations, 2 FM radio stations, 3 local television stations, a local Public Broadcasting Station located at the university and five stations received on a community cable system from Salt Lake City and Atlanta. Newspapers available in the area include three dailies, **The Idaho State Journal**, Pocatello; **The Morning News**, Blackfoot; and **The Idaho Statesman**, Boise.

OTHER: There are six major banks in the area with 15 offices. Nonmetallic mineral production includes phosphate mining, reduction and manufacturing at Pocatello, Soda Springs, and Conda. Portland Cement is manufactured at Inkom, calcite is produced at Treasureton and pumice in Malad. Silica is quarried locally for the phosphate industry. Pocatello has a city manager type government with elected city commissioners.

Exploration and drilling for natural gas and oil have increased dramatically in the last two years in Southeast Idaho. The entire area is part of the Rocky Mountain overthrust belt geological formation, which has already produced major oil and gas finds in other states.

REXBURG

DEPARTMENT OF EMPLOYMENT
400 East Main
Telephone: 356-4451
C. Val Erickson, Manager

POPULATION

1960 Census	**4,767**
1970 Census	**8,272**
1980 Census (Preliminary)	**11,559**

AREA SERVED: Fremont, Madison, and Teton Counties.

GEOGRAPHY, CLIMATE: These three counties are located in the southeastern part of the State. They are bounded on the north by Montana and on the east by Wyoming and Yellowstone National Park. The headwaters of Henry's Fork of the Snake River are in Fremont County. The three counties cover 2,751 square miles with about 411,310 acres in farms. The terrain varies from flat basins, rolling hills, and miles of sand dunes to high rugged mountains. The elevation ranges from 4,850 to about 10,000 feet. The climate is dry. The growing season is from 90 to 120 days from about June 1 to September 20. Frost damage to crops in May and September is a probability each year. The average temperature from October 1 to March 31 is about 25 degrees. The average temperature from April to September 30 is 70 degrees. Yearly rainfall varies from 12 to 18 inches.

MAJOR INDUSTRIES: The area's major industry is agriculture, with grain, hay, and potatoes the chief crops. Retail and wholesale trade employ an average of about 2,350 people in about 230 business establishments. The Island Park and Teton Basin areas, which are adjacent to Yellowstone National Park on the east, are the major tourist attractions, with about 30 resorts, lodges, inns, and dude ranches. This area has one potato processing plant which generally operates nine or ten months of each year. There are also 13 fresh pack potato warehouses. Lumbering and sawmill activity are highly seasonal.

Outside of agriculture, Ricks College has been the largest force in the local economy. Ricks presently employs about 630 persons in teaching and other full-time work and about 1,000 students who work part time on campus.

OCCUPATIONS: Those occupations related to agriculture, retail trade, education, food services, food processing, clerical, and timbering and sawmilling provide the majority of jobs. This area is a demand area from about April 1 to October 30, then, due to the seasonal nature of the agriculture and construction industries, there is a surplus of labor.

UNIONS: The National Association of Letter Carriers, Local No. 2095, is in Rexburg. Other union workers in the construction trade are affiliated with Idaho Falls locals.

HOUSING: The housing situation in Rexburg and vicinity has eased considerably to the point of a surplus of student housing at present brought about by off and on campus housing building boom. Latest estimates by officials are that there is off-campus housing enough to accommodate 4,300 students, plus 1,500 on campus. A number of students live at home and drive to and from the college. The enrollment is approximately 6,500 at present.

FACILITIES: Utah Power and Light Company and the R.E.A. provide electricity for the area. Rexburg, St. Anthony, Sugar City and vicinity are supplied with natural gas by Intermountain Gas Co. Freight service is provided by Union Pacific Railroad, and trucklines are Garrett's, Browning's and Consolidated Freightways. The airport has a lighted runway, a main hangar, and shop. Telephone service is furnished by the Mountain Bell Company. Rexburg is served by a municipally owned modern sewage lagoon type treatment area.

TRANSPORTATION: Greyhound Bus Line provides daily passenger service to and from Rexburg. Rexburg has a government approved paved airport, but with no regular passenger service by air.

MEDICAL AND HOSPITAL FACILITIES: Rexburg has a well equipped, 50-bed general hospital, an ambulance service, 19 physicians and surgeons, 15 dentists, and 3 optometrists. Other hospitals are located in St. Anthony, Ashton, and Driggs.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: Rexburg has one high school, one junior high school and seven elementary schools. Ricks College, operated by the Church of Jesus Christ of Latter Day Saints, has a student body of about 6,500 with the enrollment increasing about 500 to 600 each year. Churches in Rexburg are the Church of Jesus Christ of Latter Day Saints, Catholic, Jehovah Witness, Community Church, and Presbyterian.

OTHER: Minerals in the area consist of an unlimited supply of calcite and talc. Other known minerals are silica, pumice, and gilsonite.

Two AM radio stations and one FM station serve the area.

ST. MARIES

DEPARTMENT OF EMPLOYMENT
622 College Avenue
Telephone: 245-2518
Larry Mitchell, Manager

POPULATION

1960 Census	2,435
1970 Census	2,571
1980 Census (Preliminary)	2,794

AREA SERVED: Benewah County, south half of Shoshone County, Worley, Harrison, and Medimont in Kootenai County.

GEOGRAPHY, CLIMATE: St. Maries, the county seat of Benewah County, is located at the junction of the St. Maries and St. Joe Rivers, on U.S. Highway 95A and State Highway 5.

MAJOR INDUSTRIES: The major industries in the area are lumber, plywood, farming (grain, lentils, grass seed, cattle), and tourism.

OCCUPATIONS: The major occupations are in the lumber industry. These occupations are seasonal, with labor demand peaking from June to September. During peak of employment, occupations in demand include power saw operators, skidder operators, and skilled sawmill workers such as shake sawyers.

UNIONS: The logging industry is only partially unionized in the area. There are no local representatives in St. Maries. All sawmill and plywood workers are non-union.

HOUSING: St. Maries has two hotels and two motels. The motels have 49 and 10 units respectively. Rental housing is scarce in the area. Furnished and unfurnished apartments are sometimes available, ranging in price from $180 and up. Housing for purchase is available. There are no labor camps or transient housing. Two trailer courts are available.

FACILITIES: Washington Water Power supplies electricity. Pure, soft water is taken from Rochat Creek for St. Maries. St. Maries has a sewage system.

The St. Joe River is the highest navigable stream in the United States. The river serves as a major means of transporting logs from St. Joe to Coeur d'Alene.

TRANSPORTATION: Kiefer Bus Line operates light freight and passenger service two times daily to Spokane. During the summer, regular excursion boats travel between St. Joe and Coeur d'Alene on the St. Joe River. The St. Maries River Railroad provides rail service in the county.

MEDICAL AND HOSPITAL FACILITIES: St. Maries has a 40-bed hospital with modern equipment, one clinic, and a convalescent home. Five doctors (physician-surgeons), three dentists, and an optometrist serve the area.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: St. Maries has a high school, a junior high school, one elementary school, and a kindergarten.

A municipal park, a heated pool, athletic field, a playground, and a Community Building are at St. Maries. There is a State Park located at Lake Chatcolet. There is also on ski lift.

There are eleven churches in St. Maries: Catholic, Foursquare, Presbyterian, Latter Day Saints, Seventh Day Adventist, Gospel Hall, Conservative Baptist, Lutheran, Nazarene, Southern Baptist, and Kingdom Hall.

OTHER: The population of Benewah County is 8,292 and the estimated population for the area served by the Department of Employment is 11,000.

The lumber industry has become highly mechanized and weather conditions govern logging operations. Because of this, the area experiences heavy unemployment conditions during the winter.

SALMON

DEPARTMENT OF EMPLOYMENT
Vandreff & Andrews
Telephone: 756-2234
George Galvan, Manager

POPULATION

1960 Census	2,944
1970 Census	2,910
1980 Census (Preliminary)	3,308

AREA SERVED: Lemhi and Custer Counties.

GEOGRAPHY, CLIMATE: The area is located in eastern Idaho, near the Idaho-Montana border. Salmon, the county seat of Lemhi County, is located on U.S. Highway 93 and is at the end of State Highway 28. Precipitation, which is mostly in the late fall and early winter, averages nine inches a year. Salmon's elevation is 4,004 feet above sea level

MAJOR INDUSTRIES: Livestock raising is the major industry of the area. The major nonagricultural industries are logging, sawmills, mining and tourist related activities. Federal and State activities are a major influence upon the local economy. In general, employment throughout the entire area is highly seasonal, with little activity during the winter months.

OCCUPATIONS: Occupations in the area are largely connected with the lumber industry. However, the lumber industry is currently in a slump and several lumber mills in the Salmon area have closed. The demand for lumber is being curtailed by high interest rates for new construction loans. When interest rates moderate, the lumber industry should improve. Mining is again becoming an influence in the area and is helping bolster the area's economy. World prices for two strategic metals, cobalt and molybdenum, have soared recently and contract prices are high enough to encourage development. Occasional shortages exist during the summer months for skilled woodsworkers and irrigators. During the winter months, there is usually a surplus of available workers in most occupations.

HOUSING: Furnished and unfurnished apartments and houses for rent in the area are scarce. Houses are available for purchase. Accommodations for tourists include 14 motels, 8 dude ranches, and 6 trailer courts.

FACILITIES: Two truck freight lines serve Salmon. Idaho Power furnishes electricity. The area is served by a privately owned telephone company. One radio station and two weekly newspapers serve the Salmon and Challis area.

TRANSPORTATION: There are bus lines from Idaho Falls, Pocatello, and from Hamilton, Montana, with connecting service to other points in the nation. The municipal airport provides chartered air service on a twenty-four hour basis.

MEDICAL AND HOSPITAL FACILITIES: Salmon has a hospital, six doctors, five dentists and two veterinarians. Two dentists are located in Challis in addition to a medical clinic and one doctor.

SCHOOLS, CHURCHES, AND RECREATION FACILITIES: High schools and elementary schools are located in Salmon, Challis, and Leadore. The area is served by churches of most common denominations. A bowling alley and municipal swimming pool are located in Salmon. A natural hot springs is available for swimming in Challis. There are numerous camping and picnicking areas located throughout the two-county area. The main recreation and tourist attractions are hunting for big game; fishing for steelhead, salmon, and trout; and boating on the main Salmon River and its tributaries. A nine-hole golf course is located at Williams River and its tributaries. A nine-hole city golf course is located in Salmon.

OTHER: Stanley Basin and the greater part of the Salmon River primitive area are located in the area. The elevation at Challis is 5,720 feet above sea level and at Stanley 6,796 feet above sea level. The high peaks surrounding the valleys at Salmon, Challis, and Stanley are covered with snow most of the year. The mountains are steep, rough

and rugged, but the numerous valleys located between the mountains are fertile and, with irrigation, highly productive. The general area is noted for its scenery and mineralized rock formations.

SANDPOINT

DEPARTMENT OF EMPLOYMENT
1123 Lake Street
Telephone: 263-7544
C. R. Jones, Manager

POPULATION
1960 Census **4,355**
1970 Census **4,144**
1980 Census (Preliminary) . **4,460**

AREA SERVED: Bonner County.

GEOGRAPHY: The county is located at the extreme north end of the state on the western slope of the Rockies.

MAJOR INDUSTRIES: First, lumber; second, tourism (cafes, resorts, motels, Schweitzer Basin Ski Area, and service stations).

OCCUPATIONS: First, logging. Seasonal depending on weather and lumber prices 8 to 10 months per year. Second, lumber mill. Seventy-five percent of workers in larger mills work year-round, smaller mills dependent on log supply.

UNIONS: Three larger lumber mills unionized. Three large mills not union. Area not as strongly unionized as other areas of the state.

HOUSING: The area is served by 13 motels with 264 units and 7 apartment buildings with 110 apartments, as well as 18 lakeside resorts and 10 trailer parks. Good quality rental housing is very scarce, with prices ranging from $125 to $300 per month unfurnished. There are three large condominium complexes with a total of 100 units. Each complex has recreational facilities and swimming pool. There are no farm labor camps in the area.

FACILITIES: Sandpoint and about half of rural Bonner County is served by Pacific Power and Light, with the balance served by Northern Lights. Pacific Gas Transmission Company has a large natural gas pipeline that traverses both counties. Washington Water Power Company distributes this gas in urban Sandpoint. Two freight trucking firms serve the county. Three railroads offer freight service to Sandpoint. Pend Oreille and Priest Lakes plus the Pend Oreille and Clark Fork River offer unlimited water supplies for future industrial expansion. Washington Water Power Company has a large dam in the Cabinet Gorge of the Clark Fork River. The U.S. Army Corps of Engineers operates the Albeni Falls Dam just west of Priest River.

TRANSPORTATION: Sandpoint is served by two railroads, the Empire Bus Lines, and charter air service. Sandpoint and Bonners Ferry each have local taxi service.

MEDICAL AND HOSPITAL FACILITIES: The area is served by 17 doctors. Hospitals are located in Sandpoint and Newport, Washington. The Newport Hospital serves western Bonner County and is located one mile over the Washington State line. Nursing homes are located in Sandpoint.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: Primary schools vary greatly throughout the area from one room multi-graded small rural, to very modern new units. Secondary schools are consolidated into large schools in Priest River and Sandpoint and a small high school in Clark Fork. There is a Seventh Day Adventist primary school in Sandpoint, as well as one nondenominational Christian school, also located in Sandpoint. Almost all churches are represented in the area. Rural areas are served by nondenominational churches.

RECREATION: Two of the largest lakes in the West are located in Bonner County. Lake Pend Oreille is famous for its world record size Kamloops trout and the delicious Kokanee. Twelve different species of fish are present in this lake. Priest Lake is well known for its U.S. record Mackinaw trout. It is also a popular resort area for Spokane, Washington. The entire area has numerous smaller lakes and fishing streams. Boating and swimming are the major summer recreational

activities. Schweitzer Ski Area is fast becoming one of the West's most popular winter sports hubs. This resort area has in operation seven chair lifts and one T-bar. Several times this area has had excellent skiing conditions while other areas were closed. Schweitzer also has condominium units, a day lodge, overnight facilities that can handle a total of 144 people, a nursery, two restaurants, two bars, and a ski school.

TWIN FALLS

DEPARTMENT OF EMPLOYMENT
260 4th Avenue North
Telephone: 733-4880
Jim Ingalls, Manager

POPULATION

1960 Census	20,126
1970 Census	21,914
1980 Census (Preliminary)	26,209

AREA SERVED: Twin Falls County.

GEOGRAPHY, CLIMATE: Twin Falls is located in the south central portion of the state, approximately 40 miles north of the Nevada state line. The area is volcanic in origin with very fertile topsoil. The elevation is 3,747 feet above sea level. The mean annual temperature is 49.7 degrees. Rainfall averages 9.11 inches.

MAJOR INDUSTRIES: Twin Falls has primarily been an agricultural, trading, and supply center. Although the principal industries are closely allied with agriculture, the community is gradually broadening its industrial base with manufacturing industries. The major employing industries are wholesale and retail trade, followed by services and government, and then food processing combined with other nondurables.

OCCUPATIONS: Seasonal variation in worker demand and supply is moderate due to a strong seasonal pattern of operation within many area industries. There is an increasing demand for workers in the service and domestic occupations. Seasonal field hand labor in agriculture is gradually declining. There is a shortage of experienced LPN's and RN's willing to work rotating shifts. In the future there is expected to be a need for experienced workers in the crafts—such as farm and plant maintenance, both mechanical and electrical.

UNIONS: The major craft and service unions are represented in the labor force including carpenters, laborers, teamsters, painters, electricians, plumbers, sheetmetal workers, printers, meat cutters, and retail workers. The teamsters and carpenters are the only unions with local headquarters, but other major unions are within 150 miles.

HOUSING: The majority of residents own their homes. There is an increasing demand for rentals, with a one- or two-bedroom ranging between $200 and $350 per month. There are several residential subdivisions under construction within and on all sides of the city of Twin Falls. Most new homes are selling between $50,000 and $70,000 including the land. The number of farm labor camps has diminished, and at present only the Twin Falls labor camp remains. The labor camp has 40 two-bedroom houses available for farm workers on a permanent basis. There are over 40 motels in the county, which provide more than 850 rooms. This does not include motels in Jackpot, Nevada, which is just over the county line, 40 miles from Twin Falls City.

FACILITIES: Electricity is furnished by the Idaho Power Company; natural gas is furnished by Intermountain Gas Company. A branch line of the Union Pacific Railroad connects with the main line at Minidoka. Another branch line operates into Nevada and connects with the Southern Pacific at Wells, Nevada. There are seven long-distance truck lines, and another 28 local trucking firms.

TRANSPORTATION: Two transcontinental bus lines serve the area. Republic Airlines furnishes daily schedules with main line connections to all parts of the United States through Boise, Idaho, and Salt Lake City, Utah. A charter airline service operates out of the municipal airport. The city has 24-hour taxi service. Railroad service via AMTRAK is available at Shoshone, 25 miles north of Twin Falls.

MEDICAL AND HOSPITAL SERVICES: Twin Falls has two general hospitals, the Magic Valley Memorial Hospital and the Twin Falls Clinic and Hospital, with a combined bed capacity of 204. Seventy-

one physicians and surgeons serve the area, and 28 dentists. Virtually every medical specialty except neurosurgery is represented in the area.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: Educational facilities include five public elementary schools, two parochial and one private elementary, two junior high schools, and one high school. An accredited junior college with both academic and vocational schools, and two beauty schools. Extension courses offering college credits may be taken from Idaho State University and the University of Idaho.

Forty churches, representing 29 denominations, are located within the city.

Twin Falls has a city library, a newspaper, three AM radio and two FM radio stations, a television station, and a cable-vision company relaying television programming from Boise and Salt Lake City. Recreational facilities include four theaters, two outdoor theaters, several parks, a public swimming pool, a 12-hole municipal golf course, and one private course. Boating facilities are available on the Snake River.

OTHER FEATURES OF THE AREA: Twin Falls has five banks and several branch offices, plus two savings and loan establishments. There are twelve finance corporations operating within Twin Falls. Twin Falls is located approximately 80 miles to the south of the famous Sun Valley resort area and the gateway to some of the most scenic and primitive areas in the United States.

WEISER

DEPARTMENT OF EMPLOYMENT
Morton's Alley No. 3
Telephone: 549-0665
N. Wayne Jensen, Manager

POPULATION
1960 Census **4,208**
1970 Census **4,108**
1980 Census (Preliminary) . **4,771**

AREA SERVED: Washington and Adams Counties and that part of Oregon adjacent to Weiser, Idaho.

GEOGRAPHY, CLIMATE: Washington County is bordered on the southwest by the Snake River, on the east by Payette County, and on the north by Adams County. Adams County joins Washington County above Cambridge and extends to Idaho County on the north. Adams County is also bordered on the west by the Snake River and by Valley County on the east. Weiser, the county seat of Washington County, is located in southwestern Idaho on U.S. Highways 30 and 95. The elevation is 2,114 feet above sea level. The mean annual temperature is 48.7 with an average rainfall of 9.1 inches.

MAJOR INDUSTRIES: Agriculture, forestry, lumber, cattle and sheep raising, and mobile home manufacturing are the major industries of the area. Two mobile home manufacturing plants are in operation in Weiser. They manufacture single and double wide mobile homes. There is also another plant manufacturing printed drywall paneling for mobile homes. These plants are owned and operated by the parent company, Champion Home Builders, and are located at the Weiser Industrial Site. A manufacturer of cellulose insulation for residential and commercial use is located in Weiser.

OCCUPATIONS: The primary occupations for the area include: year-round ranch and farm hands and seasonal field workers for the agriculture industry, seasonal forestry workers and loggers, and mill men for the lumber industry. Construction worker demand is dependent on local construction projects.

UNIONS: The principal unions are the A.F. of L. Carpenters and Joiners Union, No. 2735, which has jurisdiction over the lumber industry in Adams County.

HOUSING: There are two motels and six trailer courts in the area with an approximate total capacity of 215. One-bedroom rental housing is adequate, but two- and three-bedroom housing is scarce. Furnished and unfurnished apartments are available. Weiser has a 40-cabin farm labor camp which can accommodate 175 people. Farm labor housing is adequate for transient housing.

FACILITIES: The Idaho Power Company supplies electricity; natural gas is furnished by the Intermountain Gas Company. The Union Pacific Railroad operates freight lines through Weiser and a branch line to New Meadows.

Weiser has direct motor freight service to California as well as other areas of the Northwest. Consolidated Freightways, Garrett, PIE, and Silver Wheel Freightlines serve the Weiser area.

TRANSPORTATION: Regular passenger service is provided by the Greyhound Bus Line. Weiser has a small flying field for smaller aircraft.

MEDICAL AND HOSPITAL FACILITIES: Weiser has a modern 30-bed hospital, three doctors and three dentists and a 120-bed nursing home. There are also two doctors and a modern 20-bed hospital at Council in Adams County.

SCHOOLS, CHURCHES AND RECREATION FACILITIES: Weiser has a high school, junior high school and three elementary schools. There are 28 churches in Washington and Adams Counties, representing 17 denominations.

There is one grade school and one high school in each of the communities of Midvale and Cambridge in Washington County and

Council and New Meadows in Adams County. Weiser has two large parks, a swimming pool, a large, lighted football and baseball park and a bowling alley. Weiser has one of the best golf courses in southwestern Idaho. The city employs a year-round recreation director. The American Legion sponsors a junior ball team and has one of the best indoor target ranges in the state, which is approved by the National Rifle Association. Youth small-bore target training is provided under qualified instructors. The Hunter's Safety Program is carried out under approved methods by the Idaho State Wildlife Federation. The large reservoir established by the back waters of the Brownlee Dam is heavily stocked with bass and crappies. Several others species of fish are found there also, including sturgeon, channel catfish, steelhead, trout, and the small variety of catfish and whitefish. Boating on the lake has become one of the favorite sports of the area. Various sites along the lake shore are being considered for recreational areas. A smaller reservoir, Mann's Creek Reservoir, also provides boating and fishing near Weiser.

OTHER: An 86-acre plot adjacent to the railroad purchased by the Weiser Industrial Corporation, made up of local stockholders, houses the Lewis Berry Company; Tamarack Homes, Division 16; Champion Home Builders Company, Division 24; Champion Home Builders Company, Weiser Products Division; all divisions of Champion Home Builders of Dryden, Michigan; and the Idaho Feedlot Company.

Weiser, "The Old Time Fiddler Capital of the World," sponsors a national contest each year with participants from all parts of the country; a County Museum featuring a Fiddler's Hall of Fame and numerous other articles of historic interest have been established.
